

Minutes

Present: Weinstein, Breitenberger, Eakins, Masters, Baker, Lando

Old business:

EEOB H410 - honors version of existing course (Note: approved by Honors)

Information on documented excuses needs to be added to the syllabus, and the phrase “If the class average is below a B-...” should be deleted. Caroline Breitenberger will contact the instructor, and then we will send the course out for an e-mail vote.

EEOB H415 - honors version of existing course

Deferred. More information on the statement of qualitative difference is required, and they need to add the contact information for the Office of Disability Services. The committee would like to see this again after the honors approval. Caroline will contact the proposer.

EEOB 620 - new course proposal

Deferred, and more information will be requested by Caroline:

- Which topics will be covered in each lecture?
- Is the textbook really “recommended”?
- Which techniques will be used in the recitations?

New business:

Revisions to the Evolution and Ecology major program course requirements

To be approved via e-mail
