

College of Social and Behavioral Sciences
Committee on Curricular Affairs

Present: Marvel, Sylvan, Vasey, Hodson, Haddad, Cox, David, McGraw, Davidson,
Mummy, Haurin

Notes from the 10-15-04meeting

Political Science 586, new course request

Approved.

Political Science H567 new course request

Approved

Political Science 539, new course request

Approved contingent upon some changes. There is an inconsistency with the description and the readings.. The committee recommended a change to the course title: Contemporary politics of South Asia is too broad, the syllabus it says” ...understanding the politics of contemporary India”

Political Science 739, new course request

Approved contingent upon some changes.

The committee recommended that the requirements in the syllabus be clear. (E.g.: each week one of the people in the Seminar has to present.)

Geography 460, a course change request

Approved

Psychology 632, new course request

Approved

Psychology H512, a new course request

Approved

Discussion of the revised proposal for the Biomedical Sciences major, from the College of Medicine and Public Health

Kevin Cox will send a letter to OAA in regard to the committee's concerns

The College did not quite respond the concerns. They should have more aggressively sort out SBS the policy science courses.

Although the enrollment is said 25 what if it raises above 50. The committee wants some support for the students to be reviewed for the College of Arts and Sciences. Are there enough advisors and faculty members for the students admitted to the program?
