

## **Minutes**

Present: Cox, Don Dell, McGraw, Lin, Mummy, Curry, Lando, David, Hodson

### **Psychology 505, course change request**

#### **Change of title, credit hours, course description and prerequisites**

Approved, contingent on adding the recommended readings into the weekly calendar. A suggestion is to increase the length of the paper and increase its value, while decreasing the value of the final.

### **Psychology 340, course change request**

#### **To create an honors version of Introduction to Life Span Developmental Psychology and a change of credit hours**

Send back.

The statement of difference is a bit thin. The readings should be inserted into the weekly calendar. The differences should be broken down by question on the Honors form, and should address how the honors criteria should be set forth.

### **Election of SBS CC representative to the Arts and Sciences Committee on Curriculum and Instruction**

Kevin will contact the nominee to ask him if he is willing to serve. Alternatively, there are two other members who may be willing to serve as backups.
