**Arts and Sciences Multidisciplinary Curriculum Enhancement Awards**

Additional changes to the document were discussed. The inclusion of deadline dates, specifically dates mid-quarter in Fall, Winter, and Spring quarters and at the end of Summer quarter, were added to the proposal. If a proposal will reside entirely within one college the signature of the college dean as well as a formal commitment of funds will be required.

**Interdisciplinary Proposals:**

Film Studies Proposal, returned from a previous meeting: The committee was concerned about a comment from the HUM CC about the content overlap between the proposed Film Studies 250 and English 263. The committee would like to meet with Steve Fink and John Davidson to further clarify this concern.
