AEDE/IS 540, returned from previous meeting

- Committee is concerned that there is not enough reading for a 500-level course. Would like to see a justification of this credit hour request.
- DS will talk to Tony Mughan or Stan Thompson

Proposal for an Interdisciplinary Minor in Science, Technology, and Society

**Approved** with the following contingencies:

- Proposal should specifically address that only two of all courses can be at 200-level.
- The proposal needs an assessment plan.
- The proposal should include how each course addresses the goals and rationale.

Interdisciplinary Program Proposal Template

- The draft template was reviewed and approved with minor changes
