Dear Members of the ASC Curriculum Committee,

A few years ago, faculty from the Department of French and Italian, the School of Communication and the Office of International Affairs worked together to develop a certificate in *Intercultural Competence for Global Citizenship*. In the certificate we indicate that students could overlap up to 50% of their courses in the certificate with courses in their GE/Major/Minor.

Since then the rule has changed so that students can actually overlap up to 100% of their courses in a certificate with courses in their GE/Major/Minor. The Department of French and Italian would support changing this particular certificate to indicate that students could overlap up to 100% of their coursework.

Regards,

Sarah Grace Heller  
Chair, French and Italian

Dear Members of the ASC Curriculum Committee,

I am writing in support of the changes to the undergraduate certificate in Intercultural Competence for Global Citizenship. The Office of International Affairs (Cindy Jiang) collaborated with faculty from the Department of French and Italian (Janice Aski) and the School of Communication (Susan Kline) to develop the certificate. Originally, we indicated that students could overlap up to 50% of their courses in the certificate with courses in their GE/Major/Minor. OIA would support changing this particular certificate to indicate that students could overlap up to 100% of their coursework.

Thank you!
