

Biological Sciences Curriculum Committee

Dec. 10, 2008

10:30 am - noon

251 Jennings

Agenda:

1. Chair election

2. Minutes from last meeting(s)

MG 500 course redesign overview

3. Announcements:

EEOB 503.03

Please check: are there any departmental courses with variable numbers of credit hours that need to be reset due to the new Graduate School post-candidacy requirements?

4. Scheduling for WI 09 meetings (please bring your calendars)

5. Math 350 concurrence request (distributed by email)

6. New Math-Bio major proposal (distributed by email)

7. Biochem/MolGen 694 proposal: Frontiers in Life Science Research (Venkat Gopalan will join us to discuss this proposal; proposal distributed by email)

8. Chuck Daniels: Microbiology 581 proposed changes

9. Biology major learning outcomes (Judy Ridgway email)

10. Biology major specialization areas (Dave Stetson will join us to discuss these; distributed by email)

And if we have time:

11. Proposed FST graduate minor (distributed by email)

12. Questions from graduating student surveys

13. Anticipated agenda items for the coming year – any workload issues relating to changes in majors; conversion to semesters; possible changes due to college being subsumed into a division; etc.
