

All three went through CAA. We changed the major and minor in Agr Education to Agricultural and Extension Education at the same time. They were approved to be effective Autumn Autumn 2007. Plant Pathology was also reviewed by Academic Affairs and approved to be effective Autumn 2007. These were all done when we did the curriculum review for GEC-R.

The Agricultural Education minor change was completed to stay in line with the major change. We renamed the major from Agricultural Education to Agricultural and Extension Education. The removal of HDFS 364 was so that the minor could remain at 20 hours rather than 24 and based on the title of the minor the courses now listed reflect the nature and purpose of the minor.

The Plant Pathology minor was revised so that students could navigate through the minor a bit easier. We were doing too many petitions to revise the minor from what was originally approved. It is now easier to understand, more flexible and the description should make the minor more attractive to non- AGR and ENR students.

Sincerely,

Jill A. Pfister

The minor in agricultural **and extension** education is for students who are interested in preparing for educating audiences in non-formal settings. This minor would be especially helpful for students who wish to become extension educators in the areas of agriculture and natural resources, family and consumer science, youth development or community development. Students interested in working in educational endeavors with business/industry or other governmental agencies or organizations would also benefit. The minor is designed to teach the student program development and teaching methods and interpersonal skills which will enable them to effectively transfer their technical subject matter to others. This minor is appropriate for students in all agricultural departments and the Colleges of the Arts and Sciences.

The minor in agricultural **and extension** education consists of 20 credit hours of course work. If you follow the guidelines on this sheet in completing the minor, you should file the Minor Program Form with your college or school counselor. Any variation from the program described on this sheet needs the approval of the coordinating adviser.

Required courses (20 credit hours)

Agricultural Education 230 (3), 342 (3), 420 (3), 530.01 (5), 532 (3), 622 (3)
Human Development and Family Science 364 (4)

Agricultural and Extension Education minor program guidelines
