Subject: GE Math Requirements

Dear Mary Ellen,

Judie Monson reminded me that details of the GE Math requirements (for the semester system) might not be widely known. Here is our interpretation of the generic GE document:

For B.A. students

Basic Computation Skills is fulfilled either by Placement Level 4, or by credit for **Math 1075**.
Math or Logical Skills is fulfilled by passing a course from a specific list.

For B.S. students

Math or Logical Skills is fulfilled by passing **Math 1151**.

Notes:

1075 is a 4-credit semester course "Pre-College Mathematics 2"

1151.xx is a 5-credit semester course "Calculus 1"

Math placement levels 1, 2, 3, 4, 5, 6 will replace the current L, M, N, R, S, T.

Sincerely,
Dan Shapiro

Daniel Shapiro
Professor and Vice Chair
Department of Mathematics - OSU
