Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

- GOAL A. Musicianship Skills and Analysis. Students acquire understanding of the common elements and organizational patterns of music and their interaction.
- GOAL A. Musicianship Skills and Analysis. Students acquire the ability to employ this understanding in aural, verbal, and visual analyses, and the ability to take aural dictation.
- GOAL A. Musicianship Skills and Analysis. Students acquire sufficient understanding of and capability with musical forms, processes, and structures to use this knowledge.
- GOAL A. Musicianship Skills and Analysis. Students gain skills in compositional, performance, analytical, scholarly, and pedagogical applications according to the requisites of their specializations.
- GOAL A: Musicianship Skills and Analysis. Students gain the ability to place music in historical, cultural, and stylistic contexts.
- GOAL B: Performance. Students acquire technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration.
- GOAL B: Performance. Students acquire an overview understanding of the repertory in their major performance area and the ability to perform from a cross-section of that repertory.
- GOAL B: Performance. Students acquire the ability to sight read with fluency demonstrating general musicianship and in the major performance area, a level of skill relevant to professional standards appropriate for the particular music concentration.
- GOAL B: Performance. Students acquire knowledge and skills sufficient to work as a leader and in collaboration on matters of musical interpretation including rehearsal and conducting skills as appropriate to the musical concentration.
- GOAL B: Performance. Students acquire keyboard competency.
- GOAL B: Performance. Students grow in artistry, technical skills, collaborative competence and knowledge of repertory through regular ensemble experiences. Ensembles should be varied both in size and nature.
- GOAL C. Composition and Improvisation. Students acquire a rudimentary capacity to create derivative or original music both extemporaneously and in written form; ie imitation of various musical styles, and creation of original compositions.
- GOAL D. History and Repertory. Students acquire basic knowledge of music history and repertoires through the present time, including study and experience of musical language and achievement.
- GOAL E. Technology. Students acquire the ability to use technologies current to their area of specialization.
- GOAL F. Synthesis. Students begin the lifetime process of acquiring the ability to work on musical problems by combining capabilities in performance, aural verbal and visual analysis, composition, improvisation, history, repertory and technology.
- GOAL G. Knowledge of literature and pedagogy. Students gain comprehensive capabilities in the major performing medium including the ability to work independently to prepare performances at the highest possible level.
- GOAL G. Knowledge of literature and pedagogy. Students gain knowledge of applicable solo and ensemble literature; and orientation to and experience with the fundamentals of pedagogy.
- GOAL G. Knowledge of literature and pedagogy. Students in Early Music, Historical Performance, or the equivalent, gain the ability to apply aural, improvisational, and language skills, knowledge of styles and performance practices.
- GOAL G. Knowledge of literature and pedagogy. Students attain general historical and cultural knowledge as

required by the focus of the major.

- GOAL H. Variety of Performance settings and ensembles. Students have the opportunity for Solo and ensemble performances in a variety of formal and informal settings. A senior recital is essential, and a junior recital is recommended.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

The School of Music is converting all quarter courses in the program to semesters.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? Yes

All prospective music students must audition.

Re: Cover letter for semester conversion

Rationale

The School of Music offers the following documents for converting its degree programs from quarters to semesters. The School's three undergraduate degrees (Bachelor of Music, Bachelor of Music Education, and Bachelor of Arts) and four graduate degrees (Master of Music, Master of Arts, Doctor of Musical Arts, and Doctor of Philosophy) may be pursued in conjunction with 42 programs, two minors, and one Graduate Interdisciplinary Specialization:

Major Programs

- Bachelor of Arts in Music
- Bachelor of Music Education (with Specializations in General, Instrumental, & Choral Music)
- Bachelor of Music in Composition
- Bachelor of Music in Jazz Studies
- Bachelor of Music in Jazz Studies with Specialization in Composition
- Bachelor of Music in Music History
- Bachelor of Music in Music Theory
- Bachelor of Music in Performance
- Master of Arts in Music Education
- Master of Arts in Music Theory
- Master of Arts in Musicology
- Master of Arts in Brass Pedagogy
- Master of Arts in Piano Pedagogy
- Master of Arts in String Pedagogy
- Master of Arts in Vocal Pedagogy
- Master of Arts in Woodwind Pedagogy
- Master of Music in Composition
- Master of Music in Choral Conducting
- Master of Music in Wind Conducting
- Master of Music in Orchestral Conducting
- Master of Music in Brass Performance
- Master of Music in Percussion Performance
- Master of Music in Piano Performance
- Master of Music in String Performance
- Master of Music in Vocal Performance
- Master of Music in Woodwind Performance
- Doctor of Philosophy in Music Education
- Doctor of Philosophy in Music Theory
- Doctor of Philosophy in Musicology
- Doctor of Musical Arts in Composition
- Doctor of Musical Arts in Conducting
- Doctor of Musical Arts in Performance

Minor Programs

- Minor in Music
- Minor in Music, Media, and Enterprise

Graduate Interdisciplinary Specialization in Singing Health

Members of the School of Music tenure-track faculty, led by eight academic area heads, are responsible for crafting and delivering the curricula. Beginning in Winter Quarter, 2009, a task force began discussions and identified principles by which the conversion would take place. After comparing the semester systems used by peer institutions, the decision was made to minimize changes to OSU program goals and/or curricular requirements. Led by the Associate Director of Undergraduate Studies and the Chair of Graduate Studies, three committees, including the curriculum, graduate studies, and administrative (comprising the eight area heads), continued their deliberations. Administrative committee discussions yielded the decision to renumber the School's courses based upon the current numbering system rather than developing a new system.

For the remainder of the academic year, each area began to convert its courses to their semester equivalents. In the summer of 2010, new course information was collected to input the School's 700 courses, using the CUT spreadsheet. Also, during the summer of 2010, the Associate Director, in frequent consultation with the area heads, drafted semester programs, four-year plans, and curriculum maps. Each area vetted drafts of these documents at the annual faculty retreat in September of 2010. Simultaneously, the Chair of Graduate Studies, through consultation with area heads and the Graduate Studies Committee, revised the graduate degree curricular sheets. Further modifications were made to these documents through October, and near-final drafts were properly vetted through the curriculum committee, Graduate Studies Committee, and administrative committee during that period. The full faculty approved all semester programs on October 27, 2010.

Transition Plans

In Autumn of 2010, the School faculty began to advise its students of the approaching conversion to semesters: 1) during the annual welcome convocation, the Associate Director spoke with students about the conversion process and how it will affect them; 2) on the same day, a portion of the School's website was dedicated to the semester conversion. Documents contained therein discuss the semester numbering system, the university's commitment to students, and advice for the students as the semester change approaches. Over time, these web pages will contain more specific information providing details on program and course conversion. Furthermore, the SOM Associate Director will create a spreadsheet that will show current quarterly course numbers and titles and their semester equivalents. During the 2010-2011 school year, the Associate Director will also meet with student organizations such as the Undergraduate Music Council, to discuss the conversion process in detail, and to provide the aforementioned documentation to the students.

In the Autumn of 2011, the Associate Director will offer an extensive group advising session for all undergraduate students on the day prior to the start of classes. Soon thereafter, during "Advising Fairs," members of the SOM faculty, even those not regularly assigned advisory duties, will offer special (one-time only) individual advising sessions in preparation for the School's conversion to semesters. Furthermore, several times in each quarter of 2012, the Associate Director will offer additional undergraduate group sessions which will be advertised by email, web communication, and posted flyers. One-on-one advising sessions with each student's regular advisor, undergraduate and graduate, will serve as follow up during the normal advising period.

It is anticipated that, for a number of upperclassmen in the School, flexibility will be required to prevent delays in the time it takes them to graduate; the School intends to use substitute courses within each student's program to alleviate this problem. In determining eligibility for students enrolled in the School's minor programs, those courses taken in the quarter system will be honored using a 1:1 ratio. Moreover, those students who have been away from campus or have fallen behind in their programs will need special guidance to access the correct course sequence and fulfill the necessary prerequisites. The attached four-year plans will be of great assistance to all involved in this process.

I would like to acknowledge the dedicated work of the Associate Director for Undergraduate Studies, Tim Leasure, and the Director of Graduate Studies, Pat Woliver; the documents shepherded by these two gentlemen throughout this time-consuming and frequently overwhelming task are monuments to their commitment, skill, and perseverance.

Respectfully Submitted,

Undergraduate Program Rationales

Music Core Courses

In the conversion, the Music Theory core has dropped from 30 quarter hours to 16 semester units. This accounts for an overall drop of 4 credits relative to two-thirds of the total credits in the quarterly music theory core. In the Music History core, the number of semester credits is 12, a drop from the 15 quarterly credits in this area. The drop in history credits represents an increase of 2 credits relative to two-thirds of the credits in the quarterly history core. Overall, the changes to the School's Theory and History core courses are the source of a 2-credit drop in each of the School's programs relative to two-thirds of each program's quarterly credit totals.

General Education Courses

The School has decided to continue the dual role that a number of the required music history and music education courses play in the GEC categories. Music 2240 and 2241, Music History I and II, will continue to serve in the Historical Studies GEC category as well as acting as the Global Studies: Western course. Music 3351, World Music, will serve as a Culture and Ideas/Open Option GEC as well as a Global Studies: Non-Western course. Music 2470, Introduction to Music Education, will continue as a second-level writing course. The Bachelor of Music in History has, historically, had a different GE requirement than the rest of the School's tagged programs, so under the semester program, the School is bringing the History program's GE requirements in line with the other tagged degrees.

Bachelor of Music in Composition

The Bachelor of Music in Composition has been converted with minimal changes to the total number of credits relative to the quarterly program. Under quarters, the program consists of 182 credits and, under the semester system, the program will consist of 121 credits. This reflects neither an increase nor a decrease in the total credit amount relative to two-thirds of the quarterly credit total.

However, curricular changes in the program were made in response to concerns noted by the School's accreditation body, the National Association of Schools of Music. While their concerns are with the current quarterly version of the program, the School feels it appropriate to change the semester program to reflect the proposed quarterly program revisions. Specifically, NASM was concerned by the number of composition lessons required in the major area of the program (see BM Composition curricular sheet, Appendix A, the section entitled "Music Theory & Composition"). In the semester version of the program, the School has added the following courses to the Music Theory and Composition category:

- Composition II (Music 5635)
- Senior Composition Project (Music 4679.02)
- Extended Tonality (Music 5620)
- Theory and Analysis, 20th Century (Music 5623)
- An upper-level music theory/composition elective option of 5600-level courses.

The Composers Seminar course (Music 5630) is a new addition to this category as well. The course previously resided, as Music 630, in the "Ensembles" category. There are no other significant changes to the Bachelor of Music in Composition.

Bachelor of Music in Jazz Studies – Performance Specialization

The Bachelor of Music in Jazz Studies program has two specializations, Performance and Composition. The Performance specialization has been converted with significant changes to its curriculum. Under quarters, the Jazz Performance program consisted of 196 credits and,

under the semester system, the program will consist of 135 credits (see Appendix A). This reflects a total increase of 4 credits relative to two-thirds of the quarterly credit total.

The Performance specialization has had, historically, an undervalued applied lesson requirement relative to the classical performance program (See Bachelor of Music in Performance – Orchestral Instruments curriculum sheet, Appendix A). To compensate for this somewhat in the semester program, the School has increased the number of credits in each applied course during the third year to 4 credits. This change has resulted in a net increase of 2 units relative to two-thirds of the quarterly credit amounts in this category. The School notes that, even with this increase, the program is still undervalued in this category when compared to the classical performance program.

Courses in the category entitled “Jazz Studies” are largely unchanged with respect to content. The three courses in Jazz Improvisation (Music 2209, 3210, 4510) have remained 3 credits each in the conversion as has Jazz Styles and Analysis (Music 3446). The other courses in this category, originally 3 credits each, have moved to 2 credits in the conversion. The School has modified Music Industry (Music 591) and renamed it Introduction to Music Enterprise (Music 2271). The goal of this course is assist the student in entrepreneurship and self-promotion in the music field. The School feels that the skills developed in this course are critical to performing musicians, particularly in the current economic climate. The course has also been moved out of the Jazz Studies category and into its own category. The net effect of these changes in the Jazz Studies category is zero credits relative to the quarterly version.

All other courses in the Jazz Performance program have been converted with no changes.

Bachelor of Music in Jazz Studies – Composition Specialization

The Bachelor of Music in Jazz Studies - Composition specialization (see Appendix A) has been converted with minimal changes to its curriculum. Under quarters, the Jazz Composition program consists of 189 credits, and under semesters, the program will consist of 128 units. This reflects a total increase of 2 credits relative to two-thirds of the quarterly credit total.

In the category entitled “Jazz Studies”, the School has made three significant curricular changes. As occurred in Jazz Performance, Music Industry (Music 591) was removed from this category and replaced with Introduction to Music Enterprise (Music 2271) in its own category. (See rationale in Jazz Performance description above.) Jazz Improvisation 3 (Music 211), was converted to semesters as Music 4510, however, it was removed in the semester Jazz Composition program. The total time allotted overall to improvisation in the program has remained the same, one-year each for the quarterly and semester programs. Lastly, Survey of Jazz Styles (Music 446) and Modern and Contemporary Jazz Styles (Music 566) were combined into one course, Jazz Styles and Analysis (Music 3446). Several of the courses in this category remained at 3 credits in the conversion due to the amount of work involved. This offsets somewhat the drop in credits in the applied music and music theory categories relative to the totals in those categories in the quarterly program.

Bachelor of Music in Performance – Orchestral Instruments

The Bachelor of Music in Performance – Orchestral Instruments (see Appendix A) has been converted with minimal changes to the total number of credits relative to two-thirds of the quarterly program. Under quarters, the program consists of 183 credits and, under the semester system, the program will consist of 125 units. This reflects an increase of 3 credits relative to two-

thirds of the quarterly credit total. The School has added two courses to this program's curriculum:

- Career Development in Music (Music 5591)
- Senior Pedagogy Project (Music 4679.05)

Both courses were added in response to fundamental realities facing the School's graduates. Music 5591 educates them in entrepreneurial opportunities in the field and suggests tactics for self-promotion and marketing. Music 4679.05 is a pedagogy project related to each student's primary instrument for possible use in the student's private teaching studio following graduation.

Bachelor of Music in Performance in Piano

The Bachelor of Music in Performance – Piano (see Appendix A) has been converted with minimal changes. Under quarters, the program consists of 181 credits and, under the semester system, the program will consist of 122 units. This reflects an increase of 2 credits relative to two-thirds of the quarterly credit total.

The increase in credits in this program comes from the musicology category. Piano Literature, Music 653 in the quarter program, has been converted to two courses in semesters, Piano Literature I (Music 5653.01) and Piano Literature II (Music 5663.02), and each course remains at 3 credits. The Piano Pedagogy I and II courses, Music 611 and Music 612, have been collapsed into one course, Music 4611, Piano Pedagogy I.

Bachelor of Music in Performance – Voice

The Bachelor of Music in Performance – Voice (see Appendix A) has been converted with minimal changes. Under quarters, the program consists of 202 credits and, under the semester system, the program will consist of 135 credits. This represents neither an increase nor decrease relative to two-thirds of the quarterly credit total. One significant change to the program's curriculum was the addition of Introduction to Opera (Music 3342) into the musicology category. Intro to Opera will also serve as an Open Option GEC under the semester program. The program's diction course requirements were substantially reduced from four courses in the quarterly program to two courses in the semester program.

Bachelor of Arts in Music

The Bachelor Arts in Music (see Appendix A) has been converted with minimal changes with respect to the total number of credits in the program relative to two-thirds of the credit total in its quarterly equivalent. The quarter program consist of 181 credits, and, under the semester system, the program will consist of 121 credits. This reflects neither an increase nor a decrease relative to two-thirds of the quarterly credit total.

However, one significant curricular change was made in the program in response to concerns voiced by the School's accreditation body, the National Association of Schools of Music. NASM noted that the number of applied lesson credits required in the program was too low and, in response, the School has added two years of applied lessons to the semester program. Specifically, courses added to the Applied Study and Ensembles category are:

- 2201.xx – Applied Music, Principal (2 registrations)
- 3403.xx – Applied Music, Principal (2 registrations)

Music, Media, and Enterprise Minor (XXX, XXX)

Coordinating Advisor contact info: An Arts academic advisor or the Director of the Music, Media, and Enterprise Minor in the School of Music.

The Music, Media, and Enterprise minor requires a minimum of 15 credits of course work. Students are required to take courses in Music, Communication, and Business and to select at least one course from outside their major. No courses may be taken for credit more than once and counted toward this minor.

Through the MME minor, students will be able to develop a multidisciplinary perspective on the role of music in commerce, and society. Students gain a theoretical foundation for continuing study and research in the interrelated areas of music, communication, business, society, and culture. They will exhibit knowledge of fundamental principles relevant to professional education in business and the law and understand the practical principles and skills of musical and creative entrepreneurship. Through the MME Minor, students will be able to transcend disciplinary specialization and isolation to explore the heterogeneous complexity of music production and reception in contemporary society.

Required Courses (9 credit hours):

Students must take the following courses:

MUS 2271 Introduction to Music Enterprise (3)
MUS 3330 Music Production and Reception (3)
BUS MHR 290 (Successor) Entrepreneurship

Electives (6 credit hours):

The recommendation is to choose at least two courses outside the student's major; however students must take one course outside their major.

Students should complete the remaining credit hours to total 15 credits for the minor. This may be from the courses listed below:

+COM 1101 History of Human Communication (3)
COM 3404, Media Law and Ethics (3)
*COM 3413 Media Entertainment: Theory and Research (3)
*COM 2440 Mass Communication and Society (3)
*COM 4446 Media Economics (3)
COM 3554 Social Implications of Communication Technology (3)
COM 3466 Communication and Popular Culture (3)
*AMIS 211 (Successor) Introduction to Accounting
BUS MHR 390 (Successor) Personal Creativity and Innovation
*BUS MHR 490 (Successor) New Venture Creation (pre-re: 290)
MUSIC 2220 Introduction to Music Technology
MUSIC 2250 Music Cultures of the World
MUSIC 2251 The World of Classical Music
MUSIC 2252 History of Rock 'N' Roll
MUSIC 2253 Introduction to Jazz

Associate Professor
School of Music
110 Weigel Hall
1866 College Road
Columbus, OH 43210

Dear Dr. Leasure,

I am pleased to inform you that the Fisher College of Business plans to offer the courses you wish to include in your Music, Media, and Enterprise minor program under semesters.

The current courses you include in that program are AMIS 211, and Bus-MHR 290, 390, and 490. We plan to continue to offer all these courses under semesters. The proposed course numbers for these courses will be finalized within the next two weeks. We will inform you of the course numbers, titles and credit hour values as soon as these are finalized.

We would be happy to have you continue to make these courses available to Music, Media, and Enterprise minor program students under semesters.

Please let me know if you have any questions or if you need further information. Best wishes for good success with the semester conversion process.

Sincerely,

RE: School of Music Minor

Colleagues:

We have reviewed the proposed semester version of the Music, Media and Enterprise Minor offered by the School of Music and have examined the Communication courses listed as options under the minor. We intend to continue to offer these courses as semester courses, and so have no problems with continuing the minor as proposed.

Sincerely,
