Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

- 1. Student will be able to think critically about gender and women's issues.
- 2. Student will be able to pursue interdisciplinary inquiries about gender and to pose questions that cut across disciplinary fields.
- 3. Student will be able to perform women's studies research: develop an argument, organize data and evidence for that argument, and express ideas in writing.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

Majors are assessed through a final paper in their capstone course which is then evaluated according to our three program learning goals. Data is then tabulated to evaluate student's achievement of our program's learning goals. This requirement will remain true during semesters as the senior capstone course remains a foundational requirement for our majors.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No
