There is currently no course taught in SBS in geopolitical theory in Geography, nor under the moniker of "geopolitics" more broadly--this despite the fact that it is a major reemerging field of research and teaching in Geography and beyond. Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds. The implementation of this course is made possible by an increase in Assistant faculty teaching loads.
