Subject: Cover letter for HA367

Dear Val and Kate,

I forgot to attach the cover letter to my previous email; what you received has to do with the following:

Attached please find a course change request for History of Art 367: A Cultural History of the Midwest in the 20th Century. The course was originally designed as an interdisciplinary honors seminar (Honors 542) and initially team-taught with collaborators from the Depts. of History of Art and History. The course has since been reassessed as a second writing course because it focuses on the United States and because of its requisite emphasis on developing a facility in expository writing and oral presentation. It is also a qualifying course for VPA status in the Arts and Humanities Breadth Category: Analysis of Texts and Works of Art.
