1. Provide the rationale for proposing this course:

The topic of attention encompasses a broad range of phenomena that cannot be covered as a section in more general courses. This course will survey 7-9 distinct topics on attention selected for their multi disciplinary applicability (e.g. ergonomics, brain injury and attention, developmental disabilities and attention). Findings from Cognitive and Human Experimental research will be integrated with selected areas of Behavioral Neuroscience and Psychopathology in order to explore the topic of attention from multiple perspectives.

2. Please list Majors/Minors affected by the creation of this new course. Attach revisions of all affected programs. This course is (check one): Required on major(s)/minor(s) A choice on major(s)/minor(s)
 An elective within major(s)/minor(s) A general elective:

3. Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course.

Course will not require additional funding and will be taught by existing faculty

4. Is the approval of this request contingent upon the approval of other course requests or curricular requests?

Yes No List:
