Choice of Major(s)

Choice of Minor(s)

A General Elective

State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

The previous course offering, Micro 581, was offered as a combined lecture and lab course. The demand for this course has outpaced the ability of the Dept to accommodate the students. Uncoupling the lecture and lab sections will allow us to expand the enrollment for the lecture sections offered in Au and Sp. The lab section will be offered AuWiSp to accommodate the increased demand.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

N/A

Is approval of this request contingent upon the approval of other course or curricular requests?  Yes  No

Please complete and attach the form(s) on the following page before completing the package.
