☐ A General Elective

State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

This course is being proposed for the environmental citizenship minor curriculum, and will also provide a new Arts and Humanities (Cultures and Ideas) and Diversity option for SENR students. The course also fills a gap by providing instruction on environmental ethics, and matches very well the environmental citizenship curriculum goals.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

None required.

Is approval of this request contingent upon the approval of other course or curricular requests? ☐ Yes ☒ No
