State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

Fantasy and science fiction appeal to students majoring in scientific, engineering and other fields outside the Humanities, as well as to those in the Arts and Humanities. It is likely to attract non-majors, and to enroll heavily from outside the College, inducing some students to minor or major in English.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

The Department of English approved this proposal on February 13, 2009, for implementation with existing resources.

Is approval of this request contingent upon the approval of other course or curricular requests? Yes No

Please complete and attach the form(s) on the following page before completing the package.
