State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

There has been a growing demand for courses in video game design and theory. This course covers the topics of game prototyping which involves building a contextual understanding of video games and exploring the ideas behind the fundamentals of game play. Students will learn key game mechanics and put them into practice through game prototyping.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

This will be a new course offering within ACCAD and will require one additional lecturer position during winter quarter. Budget support will come from a reallocation of existing resources.

Is approval of this request contingent upon the approval of other course or curricular requests?  Yes  No
