Elective within Minor(s)

Choice of Major(s)

Choice of Minor(s)

A General Elective

State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

Animals have an important and changing role in society. This course, in conjunction with a study abroad experience, provides students the opportunity to compare the roles of animals in US culture with that of other cultures (ANIM SCI 697.05, Europe and/or proposed ANIM SCI 697.06, Eurasia), preparing them to be informed decision makers about how humans use and interact with animals in our society.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

No new funding is required. This course was previously taught Au 2008 and will be taught Au 2009 as ANIM SCI 494, Group Studies. It is a course in the Human and Animal Interactions cluster, and as ANIM SCI 494 (Au 2009)with ANIM SCI 697.05 has been approved to fulfill a Diversity; International Issues GEC requirement.

Is approval of this request contingent upon the approval of other course or curricular requests? Yes No

Please complete and attach the form(s) on the following page before completing the package.
