Subject: Update on freshman seminar proposal: Why Do Fools Fall in Love?
Date: Thursday, March 25, 2010 4:10:21 PM

Dear Dr. Herman,

I am writing to inform you of the status of your Freshman seminar proposal- Why Do Fools Fall in Love? After an in-depth review, the committee has unanimously approved your seminar with the following stipulations- the subcommittee feels that the current assignment list is incomplete. They understand that the syllabus will not be finalized until the summer, but they request that you submit your final syllabus (in electronic form) in the fall for review by the appropriate CCI subcommittee. Therefore, the syllabus, if posted on the freshman seminar website, should have a "draft" watermark.

Also, since we don't know what decimal points we will be assigning each seminar in the fall (these change from one quarter to another), could you drop the .07 (as in 137.07) in your syllabus. At this point, the course is simply ASC 137.

Please let me know if you have any questions concerning this or any other matter.

Sincerely,

Chinwe
