Yes - looks like a great course. Comparative Studies concurs.

Subject: FW: Concurrence - New Course Proposal for English 361

I'm assuming a concurrence is fine?

Subject: Concurrence - New Course Proposal for English 361

Hello, Marge:

If I need to send this request directly to Gene Holland, please let me know, but I thought it might be more efficient to write you first about a new course request Jim Phelan has prepared focused on narrative and medicine for which we think CS should be consulted for concurrence. Attached you'll find the sample syllabus and new course request drafted for the ECA. I'd like to include concurrence from CS if possible when launching the package.

As always we're on deadline, so please let me know if you have questions, need additional information or if any discussion is required and concerns addressed. Otherwise, concurrence from Gene in the form of an e-mail would be great, if that's easiest. Thanks!

All the best,  
Deb
