Have regional campus faculty members been consulted, as appropriate? Yes No N/A

When submitting a GEC course proposal, please enter the related [GEC Subcategories](#) into the field below and attach a GEC Rationale and Course Assessment Plan to this proposal.

General Course
Information
Statement

This GEC course will provide an opportunity for students to study diverse representations of illness, aging, medical treatment, healing and related issues under the larger framework of considering what narrative can do for our understanding of medicine.

A General Elective

State the need and purpose of the course. Indicate how the course relates to the primary goals of the academic unit/school/college/university.

Illness and medicine have long been subjects of literary fiction, and in recent years there has been a spate of narratives by medical professionals and their patients reflecting on their experiences. This course will complement the English Department's offerings in disability studies as well as help increase the Department's ties to the College of Medicine and to Student Health Services.

Indicate the nature of the program adjustments, new funding, and/or withdrawals that make possible the implementation of this new course. Evidence must be given of whether the budget support will come from reallocation of existing resources or from new program funds.

N/A

Is approval of this request contingent upon the approval of other course or curricular requests? Yes No

Please complete and attach the form(s) on the following page before completing the package.
