Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program		57	38.0	34	4.0
Required credit hours offered by the unit	Minimum	35	23.3	28	4.7
	Maximum	50	33.3	34	0.7
Required credit hours offered outside of the unit	Minimum	0	0.0	0	0.0
	Maximum	15	10.0	6	4.0
Required prerequisite credit hours not included above	Minimum	15	10.0	6	4.0
	Maximum	15	10.0	9	1.0

Explain any change in credit hours if the difference is more than 4 semester credit hours between the values listed in columns B and C for any row in the above table

With the conversion, some outside courses that were available to the major before are no longer available, as they converted to 1000 level classes, so we have made a slight adjustment in requirements.

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

- Students are knowledgeable about the principles of communication within a social science framework and understand the role of communication in society.
- Students are competent in practicing communication.
- Students are sufficiently trained and prepared to get jobs in the field of communication.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

For our assessment, we use a variety of direct and indirect methods, across several courses, and our core courses remain essentially the same. None of our assessment practices depend on quarter or semester lengths. As a result, we do not anticipate any changes to our assessment practices under the semester

system.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Program Specialization/Sub-Plan Name	Strategic Communication (Existing)
Program Specialization/Sub-Plan Goals	•
Program Specialization/Sub-Plan Name	Communication Technology (Existing)
Program Specialization/Sub-Plan Goals	•
Program Specialization/Sub-Plan Name	Comm Analysis & Practice (Existing)
Program Specialization/Sub-Plan Goals	•

Pre-Major

Does this Program have a Pre-Major? Yes

Completion of COMM 1100 and 1101 (with C- or better). Freshmen considered for admission following 15 semester hours minimum, transfer students considered for admission following completion of premajor courses. Enrollment management plan remains. Students admitted based on space and cumulative grade point average. Transfer students fulfilling premajor courses through transfer will be considered based upon cumulative gpa from transferring institutions. See Semester Conversion_Revision of Premajor

Comments

- In semester advising sheets after Strategic Comm, the prereqs are shown as Comm 1101 and 1101 rather than 1100 and 1101. Also, the quarterly advising sheets do not show prereqs but total hours reflect them so a casual look makes it appear that two courses have been added, which is not the case: consider correcting this. *(by Mumy, Gene Elwood on 11/24/2010 06:26 PM)*

Re: Revised Semester Conversion Proposal for Communication BA

Date: Feb 1, 2011

Larry:

The CCI Sciences subcommittee met on April 4th to discuss the revised Communication BA semester conversion proposal and voted unanimously to approve it and send it forward to the full CCI contingent upon a few minor corrections and comments. The Communication BA has been minimally modified from its quarter version. Changes include the development of methods courses specific to each track, and the splitting of some quarter courses into smaller, two credit hour semester courses to allow for students to select “clusters” appropriate to each track. The major will continue to include three separate tracks that students select, with a research methods class, a set of core area requirements, and a set of area electives for each track. Corrections and omissions from the proposal are noted below.

- Nowhere do the courses have credit hours attached. This seems particularly important on the semester advising sheets since the requirements are listed in terms of credit hours rather than in terms of courses.
- The transition policy includes a few typographical errors: “potentialsome problems” and “ofto not delayingdelay.” We also suggested a review of all tracks to ensure that no course sequences or shifts in requirements from quarters to semesters would require specific transition needs.
- The advising sheet for the Strategic Communication track has a few quarter numbers (Stat 135 and 145 and Comm 699).
- Also for the Strategic Communication track, students could take whole major with only 3 upper-level courses. The advising sheet might include a note reminding students that they need to take 39 credits at the upper-level for their overall program.
- Finally, on p. 2 of the proposal, the “List of Semester Courses in the Program” lists CS&E 2310, but the course does not appear in subsequent list of courses with titles (p.4). There may be other similar discrepancies between the two lists as well.

Thanks.

Chairs of Arts and Sciences CCI and CAA

Dear Chairs:

At the undergraduate level the School of Communication has two major programs:

The Communication Bachelor of Art with three areas of concentration: 1) Strategic Communication; 2) New Media and Communication Technology; and 3) Communication Analysis and Practice.

The Public Affairs Journalism Bachelor of Art (a tagged degree).

In her cover letter, School Director Carroll describes the careful consideration given by the School to the semester conversion plans for all programs, especially these two majors and the minimal changes made to the majors in the conversion. The only changes worth noticing at all are the repackaging of some courses into more concentrated modules. The conversion plans were reviewed and endorsed by the Social Sciences Disciplinary Advisory Panel (SS DAP).

As a result I approve Communication's conversion plans for its two majors and submit them for CCI's consideration.

At the undergraduate level Communication also has four minors. In addition to the General Communication minor, there are three specialized minors:

- A) Communication Technology
- B) Media and Society
- C) Organizational Communication

The three specialized minors were developed during 2007 and were approved as new minors in Spring 2008; and the general minor was reassessed at the same time. Because of technical issues with PACER the Communication Technology and Organizational Communication minors are listed as new, when they are in fact straight conversions of the minors approved in 2008 at 20 quarter credit hours. Indeed all of the minors are straight conversions because they are new or were reconsidered as part of the 2007-2008 process. As a result the SS DAP has endorsed the semester versions and I have approved them and submit them for CCI's consideration.

At the graduate level Communication offers the Ph.D. and MA. In her letter, School Director Glynn notes that much thought was given to the structure of the programs but in the end the faculty was satisfied with the current structure of the programs and both were converted with very minimal change.

The approval process for all Ph.D. and MA programs in SBS was that all of them were first examined and discussed for feedback and improvement by the SBS Graduate Committee, which is made up of the graduate directors. When ready for final consideration in the Division they move to the Social Sciences Disciplinary Advisory Panel (SS DAP). For other graduate programs in SBS the departments work with the associate dean and then the programs are sent to the SS DAP when ready.

The SS DAP has approved the Communication Ph.D. and MA programs after minor changes and I endorse that decision and now submit them to CAA and the Graduate School for their consideration.

Sincerely,

Subject: Program Conversion

The School of Communication is pleased to recommend the adoption of the enclosed materials for semester conversion. These materials include templates for the following programs:

Program:

Ph.D., Communication
M.A., Communication
BA, Communication (sub-plan in Strategic Communication)
BA, Communication (sub-plan in New Media and Communication Technology)
BA, Communication (sub-plan in Communication Analysis and Practice)
BA in Journalism, Public Affairs Journalism

Minors:

Communication (general)
Organizational Communication
Communication Technology
Media and Society

Our conversion, as with all major curriculum initiatives and revisions, followed the School of Communication Pattern of Administration guidelines through discussions and deliberations involving all department faculty. In this instance, these discussions and deliberations were pursued by our Semester Conversion Committee, discussions with all departmental faculty by area and at faculty meetings, discussions amongst the chairs of the Undergraduate and Graduate Studies committees with the department chair, and solicited input (including focus group discussions) from undergraduate and graduate students. In addition, we sought advice and information about experiences from benchmark institutions that had undergone calendar conversion in recent years.

Our Associate Director for Planning and Research and our Associate Director for Undergraduate Studies worked with our Undergraduate Program Coordinator and members of the faculty representing each area of study to develop our undergraduate plans. The Director of Graduate Studies and members of the School of Communication Graduate Studies Committee worked together to put together the M.A. and Ph.D. semester conversion graduate programs.

Votes were taken within committees and at faculty meetings to develop consensus in support of the programs. The plans were presented to the full School of Communication faculty and

feedback was provided and taken into account in revisions. A final vote was taken and results were strongly supportive of the proposed semester conversions of our undergraduate and graduate programs as reflected in these documents.

We believe that we have followed all guidelines and provided what is required at upper administrative levels. While our programs fall within the scope of 'minimal programmatic changes,' our faculty and staff had put a great deal of thought and effort into the conversion. In addition, we have sought input from our graduate and undergraduate students, conducted focus groups on semester conversion as well as on what they would like to see changed, examine potential overlap in courses with the transition to semester, run simulations for course enrollments for majors and non-majors with the move to semesters. In addition, we have developed plans for staffing courses with faculty and graduate teaching assistants, assessing our needs and running simulations based on projected enrollments. The results reflect, I think, the best programs we can develop that will insure that all of our students can remain on track for graduation while obtaining a high-quality education in Communication and Journalism.

A number of courses have been dropped, or merged, there are several new courses, and we have considered the implications of all the changes for our undergraduates. Minimal programmatic change also reflects the fact that our curriculum has been in continual update and change for the past 10 years. We have seen a number of programs at our peer institutions follow our lead in developing concentrations within communication, and reforming our journalism major to keep apace with industry evolution. Because of these efforts, much of our work was focused on maintaining the integrity of our programs while converting to semesters, identifying weak spots and/or potential problems, and ensuring that students in the transition years will not be harmed by the process.

I recommend approval of our plan for semester conversion.

Communication Major Semester Proposal

Rationale for Program Changes – Communication

The date of the last significant revision to the Communication Major program was in 2006. The Communication degree includes three possible sub-plans: Strategic Communication, New Media and Communication Technology, and Communication Analysis and Practice. There are similarities in the core subject matter but the principles are taught in sets of courses designed to prepare students for different career paths. The challenge has been to convert the program to semesters.

The changes to the communication major program can be summarized as follows:

a. enabling semester research methods to be more specialized for the sub-plans so that a particular 4-credit methods course is required for some of the sub-plans.

b. re-envisioning to enable ‘clusters’ of courses:

COMM 653, “Political Communication and e-Democracy” to enable two 2-credit classes: COMM 4853.01, “New Media and Democracy” and COMM 4853.02, “Media and Social Movements.”

COMM 3330, 3331, 3332 and 3333 are four 2-credit courses based around a general theme of strategic risk analysis and communication within particular contexts. These take the place of 3 5-credit quarter classes

Table highlighting credit hour changes

	Quarter Hours	2/3 of Quarter Hours	Proposed Semester Hours
Premajor	15	10	6
Prerequisites	0	0	3
Requirements And Required Electives	50	33.5	34-35*
Total	65	43.55	43-44*

*Requirements vary, depending on sub-plan.

Rationale for credit hour changes

Proportionately, our credit hours remain as close as we can get to our quarter programs, subject to rounding error.

Strategic Communication: Semesters

School of Communication Communication B.A. Sub-Plan in Strategic Communication (Minimum 35 credits)

Program Area Description Study and analysis of communication planning and strategies. Students will learn how to integrate public relations, marketing communication, audience analysis and persuasion theory in the study and design of communication plans for organizations.

Students in this area will take courses that emphasize the following:

- Public Relations and Marketing Communication
- Persuasion and Public Opinion Theory
- Communication Campaigns
- Audience Analysis

Students will train for careers in business and management or as communication specialists in organizations. They can find employment as public relations specialists, communication campaign and information managers, and communication consultants.

Pre-major requirements:

- COMM 1100 Communication in Society (3)
- COMM 1101 History of Communication (3)

Core Requirements (16 credit hrs.)

Transition Policy:

Students who began their degree under quarters will not be penalized as we move to semesters, either in terms of progress towards their degree or their expected date of graduation. For each required course, there is a corresponding semester course, and elective courses are scheduled to be offered as frequently as they are on quarters. Advisors are already meeting with students to insure that they will not be adversely affected by the conversion and are able to graduate on time, and we have trained a graduate assistant for additional advising help during 2011-2012. We do not see a need for bridge courses in Communication.

Appendix D. Revision of premajor process for semester calendar

Current process requires all students, with the exception of Honors students who are directly enrolled, to apply for admission to the School of Communication and a particular major/sub-plan. The number of students admitted equals the program's enrollment capacity. If the number of applicants exceeds the number of available spaces, enrollment is based on student's cumulative grade point average. To be eligible for admission students must complete premajor courses (COMM 101 with C- or better, COMM 200 with C- or better, and Statistics 135 or 145 (for Communication major) and a minimum number of hours at Ohio State (30 hours for transfer students and 45 hours for native students).

With the semester conversion upon us it is time to adjust our practice of admitting students to the communication major. It is no longer practical to require this length of time in premajor status. The reduced number of enrollment periods places a greater importance on students being connected to their major program and beginning progress toward their major program earlier in their college career.

Given the large number of transfer students we see applying to the School of Communication it is especially important that we revise our process for advanced transfers. To ensure efficient movement of qualified students into our major programs it is essential we review and update transfer equivalencies with Ohio colleges and universities. It is also important that we establish premajor requirement equivalencies and entry level major courses with our neighbor Columbus State Community College. This process has already begun as we reviewed courses in development at CSCC this past year.

Freshmen admitted to the University will be considered for admission to the School of Communication after a minimum of one semester (minimum of 15 semester hours) and the completion of COMM 101 (1101) with C- or better and COMM 200 (1100) with C- or better. The current third premajor course (Statistics 135 or 145) will be removed from the premajor requirements and attached to appropriate course requirements within the majors. Statistics 135, 145 or equivalent has been added to COMM 460 (2160) and 463 (2163) as a prerequisite. These courses are indeed essential to a student's success in the respective courses but they offer relatively little value in the actual admission decision.

Transfer students who identify communication as their intended major can be considered for admission to the School in their first semester at OSU if they have completed COMM 101 (1101) and COMM 200 (1100) equivalents and are transferring a minimum of 15 semester hours. The admission decision will be based on combined cumulative transfer grade point average. Transfer students not meeting these requirements upon entrance would be considered for admission following the completion of the required premajor courses and the decision based upon the student's OSU cumulative grade point average.

Students beginning their college careers at OSU's regional campuses will be able to complete the required premajor courses on their respective campuses. All regional campuses currently offer COMM 101 and 200.

Appeals will continue to be accepted from those students who have been denied admission to the School of Communication based on non-completion of premajor requirements and/or not having met grade point average standards.

Applications to the School of Communication will be accepted three times a year: Fall semester, Spring semester and Summer term. Students will continue to be able to submit applications online for review by the Undergraduate Committee. Notification of admission decisions will be emailed to students within two weeks of the application deadline.
