Fiscal Unit/Academic Org	Psychology - D0766
Administering College/Academic Group	Social And Behavioral Sciences
Co-adminstering College/Academic Group	
Semester Conversion Designation	Re-envisioned with significant changes to program goals and/or curricular requirements (e.g., degree/major name changes, changes in program goals, changes in core requirements, structural changes to tracks/options/courses)
Current Program/Plan Name	Psychology
Proposed Program/Plan Name	Psychology
Program/Plan Code Abbreviation	PSYCH-BA
Current Degree Title	Bachelor of Arts

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program		58	38.7	36	2.7
Required credit hours offered by the unit	Minimum	58	38.7	36	2.7
	Maximum	58	38.7	36	2.7
Required credit hours offered outside of the unit	Minimum	0	0.0	0	0.0
	Maximum	0	0.0	0	0.0
Required prerequisite credit hours not included above	Minimum	5	3.3	3	0.3
	Maximum	5	3.3	3	0.3

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals
- Students obtain knowledge across a broad spectrum of content domains.
- Students are able to understand and evaluate research methods, designs, and statistics,

  and have opportunities to apply them in research endeavors.
- Students understand the ethical issues involved in the practice of psychology.
- Students are able to write and communicate effectively in the discipline.
- Students are provided with multiple learning environments.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

We will assess four core areas under the semester major rather than six under the quarter major. The sequenced advanced courses fit the goal of obtaining knowledge across a spectrum of content domains in an advanced manner. Our surveys that are currently presented quarterly will be presented each semester. Annual surveys will remain annually. Our alumni survey every three years will remain every three years.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? Yes

Psychology 100 (1100) is a pre-requisite to intermediate and advanced coursework in the major. However, a student may declare the psychology major prior to taking Psychology 100 (1100).

        Subcommittee

RE: Semester Conversion Proposal for Psychology BA

December 29, 2010

The Sciences subcommittee of the CCI reviewed the semester conversion proposal for the BA program in Psychology on December 9th and voted unanimously to approve the proposal for consideration in the full CCI.

The Psychology department reviewed comparable programs at peer institutions and made a few changes to their BA program: they reduced the required core area courses from six to four and they restructured their advanced courses so that they integrate more closely with the core areas. The new core area structure and advanced course requirements (two courses, with at least one that is sequenced with a core area course) allow BA students more elective opportunities, including more intensive work within one area, research with a faculty member, or an internship experience.   In addition to core courses (four courses, 12 units) and advanced electives (two courses, 6 units), the major will continue to include a data analysis and research requirement (two courses, 6 units). Students will then take additional elective courses to complete their 36-hour minimum for the major.

The subcommittee originally reviewed the proposed semester conversion for the Psychology BA on November 19th.   The subcommittee returned the proposal to Psychology with a number of comments and questions, primarily regarding stated learning objectives (which were inconsistent across the proposal and very broad), a question about the adequacy of the transition and assessment plans, and a question about the existence of a pre-major. Psychology replied to our response with a revised proposal, which the subcommittee then reconsidered on December 9th.   We determined that our concerns had been adequately addressed and therefore approved the proposal unanimously with a recommendation that it be reviewed and approved by the full CCI.

Professor Larry Krissek
Chair, Arts and Sciences CCI

Dear Professor Krissek:

At the <u>undergraduate level</u> the Department of Psychology has two major programs:

The Bachelor of Arts Psychology major
The Bachelor of Science Psychology major.

In his cover letter, Department Chair Richard Petty has detailed the careful consideration given by the Department to the semester conversion plans for these two majors. In light of its evaluation of the two majors, the Department characterizes the conversions of the two majors as "Re-envisioned with significant changes.." While this is an apt characterization of the conversions, the plans are well executed reductions in required field coverage and addition of elective choices that allow students to explore areas of interest in more depth. These conversion plans were reviewed by me and the Social Sciences Disciplinary Advisory Panel (SS DAP).

The SS DAP found the conversion plans to be very well constructed, as do I. As a result SS DAP and I support Psychology's conversion plans and submit them to you for CCI's consideration.

At the <u>undergraduate level</u> Psychology also has seven minors. In addition to the General Psychology minor, there are six specialized minors:

      A) Clinical and Individual Differences;
      B) Developmental Psychology;
      C) Organization and Performance;
      D) Social Psychology and Personality;
      E) Biological Basis of Behavior;
      F) Psychology Research.

The General Psychology minor was significantly revised and the six specialized minors were developed in the last couple of years and all were approved in Winter 2010. The semester versions are straight conversions of the recently approved quarter versions. The SS DAP has endorsed the semester versions and I have approved them and submit them for CCI's consideration.

Sincerely,

Gene E. Mumy
Associate Dean of Arts and Sciences/Social and Behavioral Sciences

Richard E. Petty, Chair

To: Office of Academic Affairs
RE: Cover letter for semester conversion

Attached please find all materials for the psychology department program conversion from quarters to semesters.

With respect to converting our undergraduate program, the Psychology Department took advantage of the conversion process to engage in a complete reassessment of our major and minor programs. Initially, then department's Undergraduate Studies Committee (USC) explored semester psychology programs at benchmark institutions, and then relayed the findings to the faculty as a starting point for re-envisioning our curriculum. Based on faculty input, the USC proposed revised BA and BS versions of the major. These proposals were approved in modified form by the faculty as a whole. Subsequently, the USC reviewed all undergraduate courses, evaluating everything from our course numbering system, to prerequisite structure, sequencing, course content and learning goals for our students. The end result is the major attached.

With respect to converting our graduate program, the department is organized into seven graduate training areas (behavioral neuroscience, clinical, cognitive, developmental, IDD, quantitative, and social). Each program area worked out a converted area of concentration, and the department's Graduate Studies Committee (GSC) reviewed our overall department Ph.D. requirements as well as those of the seven areas of concentration. All proposed changes were carefully reviewed, discussed and subsequently approved by the full GSC.

As chair of the department, I can attest to the rigor with which the conversion process was undertaken and I approve of all of the proposed changes to our undergraduate and graduate programs.

Below, all current programs in the department are listed:

1. Undergraduate bachelors degree programs and/or majors: The Department of Psychology offers both a Bachelor of Arts (BA) and a Bachelor of Science (BS) degree program.
2. Undergraduate minors: The Department of Psychology has six specialized minor programs: A) General psychology minor, B) Clinical & Individual Differences Minor, C) Developmental Psychology Minor, D) Organizational & Performance Minor, E) Social and Personality Minor, and F) Biological Bases of Behavior Minor.

3. <u>Graduate degree programs:</u> The Department of Psychology has a Doctor of Philosophy (Ph.D.) program. Doctoral students in psychology typically complete a Masters of Arts degree as part of the doctoral program but the department does not have a separate MA program track.

All of these programs are proposed to continue under semesters. No program is being withdrawn. All necessary materials for the semester conversion are attached.

Sincerely,

Richard E. Petty
Distinguished University Professor and Chair
Department of Psychology

Rationale for proposed major program changes:

The Psychology Department embraced the opportunity presented within the Calendar Curriculum Conversion Guide to "rethink and redesign the curriculum" for our undergraduate major. Initially, we explored semester psychology programs at benchmark institutions, and then relayed the findings to the faculty as a starting point for re-envisioning our curriculum. In this process we evaluated everything from our course numbering system to prerequisite structure, sequencing, and course content and learning goals for our students.

We utilized the recommended 3 to 2 conversion ratio that resulted in a reduction from 58 to 36 major credit hours. Based on our investigation of psychology majors at peer institutions, it became apparent that an adjustment to some requirements within the major would be beneficial for students. These revisions will more closely align our major with those at most other major research universities on semesters. The most important changes involved: (1) reducing the number of required core area courses from six to four and (2) restructuring our advanced course requirements. These changes reaffirm the faculty's strong commitment to a major that promotes both breadth and depth, while maintaining some flexibility for students to explore individual interests and opportunities within the major.

Our proposed major includes introductory psychology plus 12 courses, arranged into four sections: (1) Data Analysis and Research Requirements; (2) Core Area Requirements; (3) Advanced Requirements; and (4) Elective Courses. Our Data Analysis and Research requirements remain the same, with two courses required for BA students (2220 and 2300) and four for BS students (2220, 2300, 3321, and advanced research course).

Our Core Area Requirements have moved from six topical areas of psychology to four with students required to take one course from each area: (1) Brain and Behavior (2305, 2313, 2513); (2) Cognitive Psychology (2302, 2310, 2312); (3) Clinical and Developmental Psychology (2331, 2335, 2340, 2530, 2550, 2551); and (4) Social Psychology (2325, 2367, 2375). The revised major further integrates our Core Area Requirements with our Advanced Requirements in that students must complete at least two advanced courses, one of which must be sequenced with a core area course.

These revisions allow students either three (for BS) or four (for BA) elective courses. This provides students with the flexibility to focus more in depth in a specific area of psychology, partake in an internship experience, or develop a research relationship with a faculty member.

Rationale for credit hours changes:

As noted above we utilized the recommended 3 to 2 conversion ratio that resulted in a reduction from 58 to 36 major credit hours. The faculty overwhelmingly agreed

that with only a few exceptions (e.g., individual study) all of the department's courses that were to be transitioned could and should become standard 3 semester hour courses. Most of our current courses are 5 credit hours. Using the 3 to 2 conversion rule, only minimal changes were necessary for them. The remaining four and three credit courses were found to be easily expandable to either cover important new topics or current topics in greater depth. In one case two courses were combined (302 and 465 to become 2302).

List of semester courses in the program:

Major Program Learning Goals

1	Students obtain knowledge across a broad spectrum of content domains.	4	Students are able to write and communicate effectively in the discipline.	A	Introductory
2	Students are able to understand and evaluate research methods, designs, and statistics, and have opportunities to apply them in research endeavors.	5	Students are provided with multiple learning environments.	B	Intermediate
3	Students understand the ethical issues involved in the practice of psychology.			C	Advanced

Semester Curriculum advising sheet:

BA Semester Advising Sheet – next four pages

> These major requirements are effective for students entering The Ohio State University SU12 or later. If you entered the university prior to SU12, please see your advisor in the Psychology Advising Office (PS 15) to determine your major requirements.

Overview of Major Requirements

- Declare Psychology as your major: **http://undergrad.psy.ohio-state.edu/html/program_major.htm**
- Thirty-six (36) credits in Psychology Department coursework. This coursework is distributed across four categories: Data Analysis & Research Requirements, Core Requirements, Advanced Requirements, and Elective Courses.
- Psychology 1100: General Psychology is a prerequisite for all psychology coursework. Psychology 1100 fulfills both a Social Science and a Social Diversity GEC. This course does not count as hours on the major.

Section I. Data Analysis & Research Requirements
Take both of the courses listed below

2220	Data Analysis in Psychology (3)	
2300	Research in Psychology (3)	

Section II. Core Requirements
Take one course in each of the 4 areas listed below.

A. Brain & Behavior
- 2305   Drugs and Behavior (3)
- 2313   Introduction to Behavioral Neuroscience (3)
- 2513   Introduction to Cognitive Neuroscience (3)

B. Cognitive Psychology
- 2302   Perception and Language (3)
- 2310   Sensation and Perception (3)
- 2312   Memory and Cognition (3)

C. Clinical & Developmental Psychology
- 2331   Abnormal Psychology (3)
- 2331H   Honors Abnormal Psychology (3)
- 2335   Psychology of Adjustment (3)
- 2340   Introduction to Life Span Developmental Psychology (3)
- 2340H   Honors Introduction to Life Span Developmental Psychology (3)
- 2530   Theories of Personality (3)
- 2550   Psychology of Childhood (3)
- 2550H   Honors Psychology of Childhood (3)
- 2551   Adolescence (3)

D. Social Psychology
- 2325   Introduction to Social Psychology (3)
- 2325H   Honors Introduction to Social Psychology (3)
- 2367*   Social Psychology (3)
- 2375   Stereotyping and Prejudice (3)

* If Psychology 2367 is used as a second-level writing course for the GEC requirement, it also satisfies the core requirement in the Social Psychology Core Requirement sub-area. However, the credits are not applied to the total credits for the major.

Section III. Advanced Requirements

Take at least two courses, one of which must be a Sequenced Advanced Course. Each Sequenced Advanced Course has a prerequisite course from the Core Areas. In order to complete this requirement, you **MUST** take the official prerequisite course **PRIOR** to taking the Sequenced Advanced Course.

Sequenced Advanced Courses		Required Core Prerequisite
4475	The Self (3)	2325 or 2367 or 2375
4501	Advanced Behavioral Neuroscience (3)	2313
4510	Cognitive Psychology Laboratory (3)	2302 or 2310 or 2312 and 2220 and 2300
4518	Attitudes: Structure, Function, and Consequences (3)	2325 or 2367 or 2375
4520	Social Psychology Laboratory (3)	2325 or 2367 or 2375 and 2220 and 2300
4532	Clinical Psychological Science (3)	2331(H)
4540	Counseling Psychology (3)	2331(H) or 2335 or 2530
4554	Language Development (3)	2550(H) or 2371(H)
4630	Attitudes and Persuasion (3)	2325 or 2367 or 2375
5600	Psychobiology of Learning and Memory (3)	2305 or 2313
5606	High Level Vision (3)	2310
5652	Behavior Modification with Children (3)	2331 or 2335
5681	Development and Psychopathology (3)	2550(H)
5684	Psychology of Delinquency (3)	2551

Advanced Courses

3309	Human Motor Control and Learning (3)
3485	Psychology and the Law (3)
3505	The History of Psychology (3)
3508	Psychology of Judgment and Decision-Making (3)
3508H	Honors Psychology of Judgment and Decision-Making (3)
3511	Psychological Testing (3)
3515	Psychology of Emotions (3)
3521	Personnel Psychology (3)
3522	Organizational Psychology (3)
3525	Psychology of Personal Security: Global and Local Perspectives (3)
3531	Health Psychology (3)
3543	Psychology of Gender (3)
3545	Cross-Cultural Psychology (3)
3552	Psychology of the Adult Years (3)
3555	Adolescent Sexuality (3)
3571	Psychology of Developmental Disabilities (3)
5601	Comparative Psychology (3)
5608	Introduction to Mathematical Models (3)
5609	Introduction to Mathematical Models in Experimental Psychology (3)
5612	Introduction to Cognitive Science (3)
5613H	Biological Psychiatry (3)
5614	Cognitive Neuroscience (3)
5615	Psychology of Language (3)
5616	Models of Language (3)
5617	Models of Memory (3)
5618	Introduction to Computational Cognitive Neuroscience (3)
5621	Introduction to Event Related Potentials (3)
5717	Interdisciplinary Seminar on Autism Spectrum Disorders (3)
5718	Developmental Disabilities: An Interdisciplinary Perspective (3)
5737	Proseminar in Cognitive Science (3)
5898	Seminar in Behavioral Neuroscience (3)

Section IV. Elective Courses

To reach the 36 credit hours required for the Psychology Major, you may take any additional courses from Sections II, III, or IV.

2301   Psychology of Extraordinary Beliefs (3)
2303   Positive Psychology (3)
2311   Psychology of Motivation (3)
2333   Psychology of Human Sexuality (3)
2350   Contemporary Developmental Psychology (3)
2376   Interpersonal Relationships (3)
2420   Psychology Applied to Sport (3)
2462   Psychology of Creativity (3)
2371   Language and the Mind (3)
3191   Internship in Psychology (3)
        Up to 3 credit hrs of EITHER Psychology 3191 OR 3193.xx may apply to major
3193.xx Individual Studies (variable)
        Up to 3 credit hrs of EITHER Psychology 3193.xx OR 3191 may apply to major
3321   Quantitative and Statistical Methods in Psychology (3)
3321H   Honors Quantitative and Statistical Methods in Psychology (3)
3594   Group Studies (variable)
3624   Primate Cognition (3)
4998   Undergraduate Research in Psychology (variable)
        Up to 3 credit hrs of Psychology 4998 may apply to major
4999.01H   Honors Research I (3)
        Up to 3 credit hrs of EITHER Psychology 4999.01H OR 4999.02H may apply to major
4999.02H   Honors Research II (3)
        Up to 3 credit hrs of EITHER Psychology 4999.01H OR 4999.02H may apply to major
5797   Study at a Foreign Institution (variable)

Section V. Other Course Offerings

The courses in this Section DO NOT count toward the major, but may apply to your GE requirements.

2389   Career Exploration in Psychology (3)
4597.01   Aging, Health, and Psychological Functioning in the Modern World (3)
4597.02   Technology, Efficiency, and Happiness (3)

Quarter Curriculum advising sheet:

BA Quarter Advising Sheet – next four pages

BACHELOR OF ARTS

DEPARTMENT OF PSYCHOLOGY Ψ 15 PSYCHOLOGY BUILDING Ψ 614-292-5750

> These major requirements are effective for students entering The Ohio State University AU08 or later. If you entered the university prior to AU08, please see your advisor in the Psychology Advising Office (PS 15) to determine your major requirements.

Overview of Major Requirements

- Declare Psychology as your major: **http://undergrad.psy.ohio-state.edu/html/program_major.htm**
- Fifty-eight (58) credits in Psychology department coursework. This coursework is distributed across four categories: Data Analysis & Research Requirements, Core Requirements, Advanced Requirements, and Additional Courses.
- Psychology 100: General Psychology is a pre-requisite for all psychology coursework. Psychology 100 fulfills both a Social Science and a Social Diversity GEC. This course does not count as hours on the major.

Section I. Data Analysis & Research Requirements

(Take both of the courses listed below)

220	Introduction to Data Analysis in Psychology (5) AU, WI, SP, SU {Honors version available AU & WI}
300	Introduction to Research in Psychology (4) AU, WI, SP, SU

Section II. Core Requirements

(Take one course in each of the 6 areas listed below. Terms listed are for 2009-2010)

A. Perception and Action

302	Introduction to the Psychology of Listening and Reading (4) WI
309	Human Motor Control and Learning (4)
310	Basic Psychology: Perception (4) AU, WI, SP, SU
311	Motivation & Action (3) SP

B. Memory, Decision-Making, and Language

312	Learning, Memory, and Cognition (4) AU, WI, SP
465	*Cognition, Language, and Memory (4)*
508	Psychology of Judgment and Decision-Making (5) AU, WI, SP, SU
508H	Honors Psychology of Judgment and Decision-Making (5) AU, SP

C. Clinical/Counseling Psychology

331	Abnormal Psychology (5) AU, WI, SP, SU
331H	Honors Abnormal Psychology
335	Psychology of Adjustment (4) WI, SP
540	Introduction to Counseling Psychology (4) AU, WI, SP, SU

D. Developmental Psychology

340	Introduction to Life Span Developmental Psychology (5) AU, WI, SP, SU
340H	Honors Introduction to Life Span Developmental Psychology (5) WI
550	Psychology of Childhood (4) AU, WI, SP, SU
550H	Honors Psychology of Childhood (4) WI
551	Adolescence (5) AU, WI, SP, SU
552	Psychology of the Adult Years (3) SP

E. Behavioral Neuroscience

313	Introduction to Behavioral Neuroscience (5) AU, WI, SP, SU

F. Social Psychology

325	Social Psychology (5) AU, WI, SP, SU
325H	Honors Social Psychology (5) WI
367.01*	Social Psychology (5) AU, WI, SP, SU
375	Stereotyping and Prejudice (4) AU, WI, SP, SU
376	Interpersonal Relationships (5) AU

* If Psych. 367.01 is used as a second-level writing course for the GEC requirement, it also satisfies the core requirement in the Social Psychology Core Requirement sub-area. However, the credits are not applied to the total credits for the major.

Section III. Advanced Requirements
(Take at least one course from each of the 3 Advanced Areas below. Italicized courses are not frequently taught.)

A. Behavioral Neuroscience and Cognitive Processes
501	Advanced Behavioral Neuroscience (4) WI
510	Research Methods in Cognitive Psychology (5) AU, WI, SP
513	Introduction to Cognitive Neuroscience (4) AU
601	Comparative Psychology (5)
606	High Level Vision (4) SP
608	Mathematical Psychology (3) WI
609	Introduction to Mathematical Models (4) AU
612	Introduction to Cognitive Science (3) AU
613H	Biological Bases of Psychopathology (4) SP
623	Biological Clocks and Behavior (4) AU (not taught in AU09)
624	Psychology of Monkeys and Apes (5) SP
644	Hormones and Behavior (4) WI (not taught in WI10)
650	Psychobiology of Stress (4) AU (not taught in AU09)

Courses not Frequently Taught
500	*Experimental Psychology (5)*
503	*Introduction to Cognitive Psychology (4)*
600	*Psychology of Learning (5) WI10*
603	*Visual Perception (3)*
617	*Neural Network Models (4)*
620	*Human Performance (5)*

B. Clinical and Developmental Psychological Science
511	Psychological Testing (4) SP
531	Health Psychology (4) AU, WI, SP
532	Clinical Psychological Science (5) WI, SP
540	Introduction to Counseling Psychology (4) AU, WI, SP, SU
571	Psychology of Developmental Disability (4) SP
681	Development and Psychopathology (5) SP

C. Social Behavior and Personality
475	The Self (5) SP
520	Experimental Social Psychology (5) AU, WI, SP
522	Organizational Psychology (4) AU
525	Psychology of Personal Security (5) WI
530	Psychology of Personality (4) AU, WI, SP, SU
543	Psychology of Women (5) WI
545	Cross Cultural Psychology (4) SP
630	Psychology of Public Attitudes (3) AU (even years only)

Section IV. Additional Courses

To reach the 58 credit hours required for the Psychology Major, take 300-level or higher Psychology Department courses, with the following exceptions: Psychology 389 and Psychology 597.xx DO NOT COUNT toward the Psychology Major.

Psychology 783H is repeatable for credit as 783.01H (3), 783.02H (3), and 783.03H (3); however, only 4 of the 9 credit hours earned through H783 will be applied to the major. Also, please note that you may apply up to a maximum of 6 credit hours of the following courses in any combination towards your psychology major program: Psychology 489, Psychology 693.xx, & Psychology 699.

Section IV. Additional Courses (continued)

Any additional courses that you take in the core and advanced areas (outside of the minimum courses you are required to complete in all of the respective areas of the major) will count toward the 58 credit hours in the Psychology Major. While the courses listed below do not fulfill core or advanced psychology major requirements, they can be taken to count toward elective hours on the 58 credit hour degree program:

301	Psychology of Extraordinary Beliefs (5) AU
303	Positive Psychology (5) WI
305	Drugs and Behavior (4) AU, WI, SP
321	Quantitative and Statistical Methods in Psychology (5) AU, WI, SP
321H	Honors Quantitative and Statistical Methods in Psychology (5) WI, SP
333.02	Human Behavior Problems: Sexual (5) AU, WI, SP
350	Contemporary Issues in Developmental Psychology (3) AU, SP
371	Language and the Mind (5) AU, WI, SP
420	Psychology Applied to Sport (5) AU, SP
425	Psychology of Attention (5)
462	Psychology of Creativity (5) AU, WI
485	Psychology and the Law (4) AU, SP
489	Internship in Psychology (4) SP
505	Historical Development of Psychology (5) AU
515	Psychology of Emotions (5) WI
518	Attitudes: Structure, Function, and Consequences (4) SP
521	Personnel Psychology (4) WI
539	Stress, Social Support, and the Professional Helper (3) (course taught only at selected regional campuses)
554	Language Development (5) SP
555	Adolescent Sexuality (5) WI, SP
560	Educational Psychology (3) (course taught only at selected regional campuses)
615	Psychology of Language (3) SP
684	Psychology of Delinquency (5) AU
693	Individual Studies (1-6)
699	Undergraduate Research in Psychology (1-6)
708	Psychology of Judgment and Decision Making (5) WI
717	Nisonger Center Courses in Mental Retardation and Developmental Disabilities (3)
726	Introduction to Behavioral Neuroscience (5)
783H	Honors Research (3)

Courses not frequently taught
425	*Attention and Distraction (5)*
512H	*Human Memory and Cognition (5)*
594	*Group Studies (1-5)*
602	*Psychology of Listening and Reading (3)*
610	*Contemporary Mathematical Models and Theories in Psychology (4)*
632	*Sensory Evaluation (4)*
646	*Psychology of Asian Americans: Children, Youth, and Families (5)*
616	*Psychological Scaling (4)*
619	*Visual Information Processing (5)*
625	*Introduction to Auditory Perception (3)*
695	*Seminars in Psychology (2-5)*

Section V. Other Course Offerings

The courses in this section do not count toward the major, but **do** count as *Upper Division Courses* or as *Issues of the Contemporary World* for the GEC-R.

389	Career Exploration in Psychology (3; Graded S/U) WI *(GEC-R: Upper Division Course)*
597.01	Drugs, Behavior, and Modern Society (5) AU *(GEC-R: Issues of the Contemporary World)*
597.02	Testing In Modern Society (5) *(GEC-R: Issues of the Contemporary World)*
597.03	Aging, Health, & Psychological Functioning in the Modern World (5) WI *(GEC-R: Issues of Contemporary World)*
597.04	Technology, Efficiency, & Happiness (5) *(GEC-R: Issues of the Contemporary World)*
597.05	*Mental Disorders in the Contemporary World (Course expected to be approved in 2009-2010)*

Additional Information

1. A psychology major offers liberal arts students considerable depth and breadth of exposure to disciplined inquiry into human and animal behavior. A major in psychology can provide a strong foundation for professional training or graduate study in psychology. However, the undergraduate degree alone is not sufficient training for a career in psychology.

2. For courses to apply toward the major or minor, you must earn at least a "C-." To earn your degree you will need a major GPA of at least a 2.0 (does not include psychology 100.)

3. A third-level writing course (Psych. 500, 510, and 520) is not required for the B.A. in psychology. However, a third-level writing course is recommended, as well as Psychology 321, for students considering graduate work in psychology.

4. Research experience via Psychology 699 (Undergraduate Research in Psychology) is also highly valuable and strongly encouraged/expected for students considering graduate work in psychology. You may enroll in Psychology 699 by instructor permission only. Not more than six credit hours combined of Psychology 693 (Individual Studies), Psychology 699 or Psychology 489 (Internship in Psychology) may be applied toward the 58 hours required for the major. However, many students choose to earn more than six credits of 699 research experience. For a listing of opportunities for Psychology 699, please see: **http://www.psy.ohio-state.edu/699/**

5. Students who are interested in exploring career options are encouraged to take Psychology 389 (Career Exploration in Psychology). This 3-credit hour course is graded S/U and provides students with the opportunity to explore career areas and develop career search skills. This course does not count on the major program.

6. Seminar offerings (Psychology 394, 594, 695 and 794) are available to advanced undergraduates. Students should keep informed of these seminars by contacting the Advising Office or checking their website. A maximum of six hours of Psychology 695 can be applied to the major.

7. 783H is a three-course sequence for students pursuing an honors thesis. Those students who wish to undertake an honors thesis (an application to the Honors Program is required) work closely with a Department of Psychology faculty member. Students propose a research topic, conduct the study, write an honors thesis, and take an oral examination on their work. Completing the honors thesis successfully and maintaining an overall GPA of 3.4 (and a 3.5 GPA in psychology) permits the student to graduate with "Research Distinction in Psychology". It is best for students to find a faculty mentor with whom to work by the autumn quarter of their third year. Most often, this will be a faculty member with whom the student has participated in Psychology 699. Students will enroll in Psychology 783.01H beginning in spring quarter of their junior year, followed by 783.02H in autumn of their senior year and 783.03H in winter of their senior year. Only four of the nine credits earned through 783H will be applied to the major. The remainder of the credits is applied to total credits required for graduation. For more information, see **http://undergrad.psy.ohio-state.edu/html/u_research1.htm.**

8. Students who have a research proposal may apply for an undergraduate research scholarship through the Colleges of Arts and Sciences. Scholarship competitions occur both in the autumn and the spring. Applications may be obtained at the Honors Office in Enarson Hall. In addition, there are two research scholarships (the Alkire Research Scholarship and Frederick Y. Billingslea Research Scholarship) available through the Department of Psychology. Applications are available early in spring quarter for the following academic year. Students who pursue research in the department may also participate in the Department of Psychology Undergraduate Research Colloquium and the university-wide Denman Research Forum held during spring quarter.

9. Students planning to graduate "With Honors in Arts and Sciences" should see **http://undergrad.psy.ohio-state.edu/html/honors_req.htm** for information on Honors Contract requirements for psychology majors.

To reach 58 credit hours, take any 300-level or higher Psychology Department courses **(Exceptions: 320, 389, 597.xx)**

Please note that you may apply up to a maximum of **6 credit hours** of the following courses in any combination toward your psychology major programs (489, 693.xx, and 699)

_____ _____ _____ _____
_____ _____ _____ _____
_____ _____ _____ _____

Transition policy:

Our semester courses for the major are straight conversions of current quarter courses and they will be offered frequently enough so that a student starting on quarters will be able to satisfy the major requirements in the same time frame as under quarters. The Department of Psychology is committed to partnering with students who will complete their degrees under two different calendar systems to minimize the impact of the conversion process on progress to completion of the psychology major. Once the psychology major and coursework are approved, every psychology major will meet with his or her psychology academic advisor to review progress in the major and construct an individualized plan for major completion. Prior to the transition, the department is committed to offering additional sections of required courses to facilitate progress through the Psychology major and majors in other disciplines that depend on the availability of these required courses. In summer 2011 and in December, 2011, psychology advisors will review the progress of their advisees and make recommendations to expedite completion of the major requirements.

Psychology Major Course Requirements (Bachelor of Arts) Under Conversion to Semesters

Thirty-six (36) credits in Psychology Department coursework. This coursework is distributed across four categories: Data Analysis & Research Requirements, Core Requirements, Advanced Requirements, and Elective Courses.

Segment of Major Program (Old)	Qtr course	Quarter Course Name	Crd Hrs		Segment of Major Program	Sem Course	Semester Course Name	Sem Hrs	Learning Outcomes	Nature of conversion
Prerequisites (may count toward GEC)	100	General Psychology	5		Prerequisites (may count in GEC)	1100	Introduction to Psychology	3	1A	same content as 100
SECTION I. Research & Data Analysis	220	Introduction to Data Analysis in Psychology	5		SECTION I. Research & Data Analysis	2220	Data Analysis in Psychology	3	1A, 2A, 3A, 5A	same content as 220
Take both	300	Research in Psychology: An Introduction	4		Take both	2300	Research Methods in Psychology	3	1A, 2A, 3A	same content as 300
SECTION II. Original Core (6) Requirements -- Take one course from each Core Area					SECTION II. Core (4) Requirements -- Take one course from each Core Area					
Perception & Action	302	Psychology of Listening & Reading	4		Cognitive Psychology	2302	Perception and Language	3	1B	new title, combines 302 & 465
	309	Human Motor Control & Learning	4			(Moved from core to "Other" category)				
	310	Basic Psychology: Perception	4			2310	Sensation and Perception	3	1B	new title, same content as 310
	311	Motivation & Action	3			(Moved from core to "Other" category)				
Memory, Decision-making	312	Learning, Memory & Cognition	4			2312	Memory and Cognition	3	1B	new title, same content as 312
and Language	465	Cognition, Language, & Memory	4			(Combined with 302 - noted above; number dropped)				

	508	Psychology of Judgment & Decision-making	5	→	(Moved from core to "Other" category)			
Clinical/Counseling Psychology	331 or 331H	Abnormal Psychology	5	Clinical & Developmental Psychology	2331 or 2331H	Abnormal Psychology	3	1B	same content as 331
	335	Psychology of Adjustment	4		2335	Psychology of Adjustment	3	1B	same content as 335
	540	Introduction to Counseling Psychology	4	→	(Moved from core to "Advanced" category)			
	-------	-------			2530	Theories of Personality	3	1B	same content as 530
Developmental Psychology	340 or 340H	Introduction to Life Span Developmental Psychology	5		2340 or 2340H	Introduction to Life Span Developmental Psychology	3	1B	same content as 340
	550 or 550H	Psychology of Childhood	4		2550 or 2550H	Psychology of Childhood	3	1B	same content as 550
	551	Adolescence	5		2551	Psychology of Adolescence	3	1B	same content as 551
	552	Psychology of Adult Years	3	→	(Moved from core to "Advanced" category)			
Behavioral Neuroscience	-------	-------		Brain & Behavior	2305	Drugs & Behavior	3	1B	same content as 305 from old "Other"
	313	Introduction of Behavioral Neuroscience	5		2313	Introduction to Behavioral Neuroscience	3	1B	same content as 313
	-------	-------			2513	Introduction to Cognitive Neuroscience	3	1B	same content as 513 from old
Social Psychology	325 or 325H	Introduction to Social Psychology	5	Social Psychology	2325	Introduction to Social Psychology	3	1B	same content as 325

	367.01	Social Psychology	5			2367	Social Psychology	3	1B, 4B	same content as 367.01
	375	Stereotyping & Prejudice	4			2375	Stereotyping & Prejudice	3	1B	same content as 375
	376	Interpersonal Relationships	5	→	**(Moved from core to "Other" category)**				

SECTION III. Original Advanced Requirements -- take at least one from each of three areas					SECTION III. Advanced Requirements: Take at least two courses, one of which must be a Sequenced Advanced Course.				
Behavioral Neuroscience & Cognitive	500	Experimental Psychology	5	Sequenced Advanced Courses	4475	The Self	3	1C	same content as 475
	501	Advanced Behavioral Neuroscience	4		4501	Advanced Behavioral Neuroscience	3	1C	same content as 501
	503	Intro to Cognitive Psychology	4		4510	Cognitive Psychology Laboratory	3	1C, 2B, 3B, 4C, 5B	same content as 510
	510	Research Methods in Cognitive Psychology	5		4518	Attitudes: Structure, Function, and Consequences	3	1C	same content as 518
	513	Introduction to Cognitive Neuroscience	4		4520	Social Psychology Laboratory	3	1C, 2B, 3B, 4C, 5B	same content as 520
	600	Psychology of Learning	5		4532	Clinical Psychological Science	3	1C	same content as 532
	601	Comparative Psychology	5		4540	Counseling Psychology	3	1C	same content as 540
	603	Visual Perception	3		4554	Language Development	3	1C	same content as 554
	606	High Level Vision	4		4623	Biological Clocks and Behavior	3	1C	same content as 623

Category	Num	Title	Credits			Num	Title	Credits	1C	Notes
	608	Mathematical Psychology	3			4630	Attitudes and Persuasion	3	1C	same content as 630
	609	Intro to Mathematical Models	4			4644	Hormones and Behavior	3	1C	same content as 644
	612	Intro to Cognitive Science	3			5600	Psychobiology of Learning & Memory	3	1C	new title, same content as 600
	613H	Biological Bases of Psychopathology	4			5606	High Level Vision	3	1C	same content as 606
