Hello all,

I completed the revisions requested in the email below for both the Sociology and Criminology and Criminal Justice Studies major programs and forwarded our Program Requests to the college for review. We addressed each of the 3 points requested (see below) including: restating the learning goals in the curricular map and in the Program Request in pacer, we fixed the typo that listed 3191 as 4191 in the list of semester courses -- it is supposed to be 3191, and we revised the curricular map to include the level of the goal that is met by each course.

Also note that we now include the most updated departmental cover letter, and that we re-ordered the advising sheets so that the quarter sheets precede the semester sheets in the pdf file.

I hope I did not forget anything or make any mistakes in uploading documents. Please let me know if that is the case and I will quickly correct those issues.

Paul
