Dear Dr. Graf (and Erica) -

I just noticed in the Modern Greek minor that the program description does not state that at least 6 hours of upper-level (i.e., 3000-level and above) course work must be taken. This is a recent requirement for all minors in ASC, and so, even though the committee did not notice this omission, I pass it along to you now, because the CCI will surely require inclusion of such a statement if it is not there. A corresponding statement also needs to be added to the semester advising sheet.

Sorry for not noticing this earlier.

Mitch Masters

PS: some 2000-level courses count as upper level, such as foreign-language courses taught in the language. I'm assuming, though, that none of the 2000-level courses in the major (2000, 2100, 24010, 2410H, 2500H, 2680, or 2940) are upper level.
