

Fiscal Unit/Academic Org	Human & Community Resource Dev - D1118
Administering College/Academic Group	Food, Agric & Environ Science
Co-administering College/Academic Group	Social Work
	Education & Human Ecology
	Arts And Sciences
Semester Conversion Designation	Re-envisioned with significant changes to program goals and/or curricular requirements (e.g., degree/major name changes, changes in program goals, changes in core requirements, structural changes to tracks/options/courses)
Current Program/Plan Name	Agricultural and Extension Education Minor
Proposed Program/Plan Name	Outreach Education Minor - OTRCHED-MN
Program/Plan Code Abbreviation	AGREDUC-MN
Current Degree Title	

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program		22	14.7	15	0.3
Required credit hours offered by the unit	Minimum	22	14.7	15	0.3
	Maximum	22	14.7	15	0.3
Required credit hours offered outside of the unit	Minimum	0	0.0	0	0.0
	Maximum	0	0.0	0	0.0
Required prerequisite credit hours not included above	Minimum	0	0.0	0	0.0
	Maximum	0	0.0	0	0.0

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

- Program Learning Goals**
- Understand and integrate the concepts of leadership, program development and evaluation, non formal education, communication and volunteer management.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? No

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No

Attachments

- Program Proposal.pdf: Program Proposal
(Program Proposal. Owner: Trefz, Marilyn Kaye)

Comments

- As requested previously, please change credit hr explanation on PACER form (column A); those 20 should read 22 as this is currently a 22-hr minor. There is also a typo on semester advising sheet: restriction 5 says G instead of GE. *(by Vankeerbergen, Bernadette Chantal on 03/03/2011 11:26 AM)*
- This minor is a revision version of the AEE minor. It is designed for students who wish to become effective developers and implementers of non-formal educational programs in community settings.

It will be useful for students interested in working with governmental, public and/or private organizations that provide outreach education related to youth development, human wellness, social sciences, food, agriculture, environment, and other life science. *(by Trefz, Marilyn Kaye on 01/25/2011 09:34 AM)*

Dr. Jill Pfister
Assistant Dean, Academic Affairs
College of Food, Agricultural, and Environmental Sciences
100 Agricultural Administration Building
2120 Fyffe Road
Columbus, OH 43210

Dear Jill:

This letter is to lend departmental administrative support to the efforts made by the Human and Community Resource Development faculty as they planned the undergraduate curriculum transition from a quarter to a semester academic calendar. The planning process has been thorough and extensively involved all faculty in the department.

Undergraduate Curriculum. The work of the faculty has resulted in three undergraduate majors I believe will serve our students well in the future:

- Agricultural Communication
- Agriscience Education
- Community Leadership, which is comprised of two specializations:
 - Community and Extension Education
 - Leadership

They have also developed four departmental minors that will meet the needs of not only students within the College of Food, Agricultural, and Environmental Sciences, but also the needs of students throughout the University.

- Agricultural Communication
- Leadership Studies (Interdisciplinary)
- Youth Development (Interdisciplinary)
- Outreach Education (formerly Agricultural and Extension Education)
- Faculty met almost weekly from January, 2010-June, 2010 and then for several extended periods in autumn.

Graduate Curriculum. Subsequent to the work on the undergraduate curriculum, the faculty turned its attention to the graduate program. Five meetings were held from the end of August through early November. The faculty agreed to continue the following graduate programs, with minor adjustments:

- Agricultural and Extension Education – M.S.
- Agricultural and Extension Education – M.Ed.

- Agricultural and Extension Education – Ph.D.
- Research Methods minor

We had essentially 100% participation in the undergraduate and graduate program development. These changes were adopted by near unanimous consensus in every case.

Many thanks to you and the College Academic Affairs Committee for your efforts in this process.

Sincerely,

A handwritten signature in black ink, appearing to read 'L. H. Newcomb', written in a cursive style.

L. H. Newcomb
Interim Chair

Columbus, OH 43210

Dear Dr. Pfister:

In response to the request for a cover letter to accompany the Proposals for Programs and Courses, I am submitting this summary of department processes. The Department of Human and Community Resource Development began its Q2S program transition with a formal departmental meeting in November, 2009. We then participated in "Q2S Wednesdays" from January 6 to June 9. As a result, the HCRD Semester Program Proposal is being submitted on July 2, 2010. This letter captures the essence of the department's collective efforts.

During the department's strategic planning meetings held Autumn Quarter, 2009, our faculty members committed to "re-examine, reconfigure, and realign all course content to prepare for the conversation to semesters as well as to more effectively provide instruction via different methods of delivery". The departmental teaching committee drew upon processes advocated by the committee that wrote the 2002 departmental document, "A New Vision for Undergraduate Education", as a basis for leading the development of new program and learning outcomes that guided our semester program development. During this time, the undergraduate coordinator met individually with each incoming freshmen, the first class of students who will be affected by the semester conversion, to review their current programs and to assure them that we, as faculty, will work with them to minimize any difficulties that may occur in their programs due to the transition.

When the department held its first "Q2S Wednesday" in January, we began with collecting brainstormed thoughts to two questions: "**What words or phrases would you use to describe our ideal graduates of the future?**" and, "**What should our ideal curriculum provide future students that they cannot acquire elsewhere?**" The data collected were factored into categories: Cutting-edge and Technically Competent; Professionally Competent and Masterful at Designing and Implementing Educational Programming; Ability to Lead; Life-long Learners; Critical Thinkers; Globally Aware; Possess Socially-Relevant Skills; Contemporary, Visionary, and Innovative. These categories provided the basis for spending the next several weeks creating our new Program Outcomes, and subsequently using the Program Outcomes to create our Learning Outcomes. Using the Learning Outcomes, we leveled the skills and dispositions according to freshmen entry-level skill development versus senior exit-level skill development, and then packaged like-outcomes into potential new courses.(Cover letter- HCRD, continued).

In April we started preparing proposed program plans which led to proposing a new structure of majors and minors that focused our efforts toward working horizontally, rather than vertically across all disciplines in the department. The proposed majors are: Agricultural Communication, Agriscience Education, and Community Leadership, with Community Leadership having two specialties; one in Community and Extension Education, and one in Leadership. With the majors decided, teams of faculty began creating first drafts of new core courses that will be required for all majors in the department. Since student input is valuable, focus groups with current extension, agricultural communication, preservice teachers, and leadership option majors were conducted. Student input was used to alter some of the original proposal.

Following discussions by faculty, it was decided that the Mayterm will be used to meet early experiences in Extension offices and public schools, since schools will be in-session while OSU is out-of-session. The Mayterm will also be used to enrich student experiences through study abroad.

Discussions regarding internship experiences and capstone courses were healthy, and resulted in exciting changes that capture more authentic, contextual experiences for learners. Current issues in agriculture and the related sciences will be used to engage learners in a combination of traditionally delivered and non-traditionally delivered experiences.

Finally, given the college interpretation of the new university General Education Requirements, the faculty made final decisions regarding credit hours available for the core, study in-depth, and electives. Also, given the new university numbering system, faculty agreed upon an organized approach to numbering the courses in the department. Student input regarding the proposed system indicated that they felt that the system was easy to understand and was logical to them.

The 8-month journey undertaken by the faculty in the department has resulted in the proposal we are delivering. We believe we have created an exciting, engaging curriculum based upon current issues in agriculture and the related sciences that is directly reflected in the new program outcomes developed collectively by our faculty. Thank you for your careful consideration of this proposal.

Sincerely,

M. Susie Whittington

Co-Q2S Point Personnel

Department of Human and Community Resource Development Rationale for Majors and Minors

The three majors in Human and Community Resource Development will be **Agricultural Communication, Agriscience Education, and Community Leadership**. The names of the majors and the content in the majors reflect current career options for our learners. These new majors were developed as a result of several weeks of faculty discussions and brainstorming to create new learning outcomes for all graduates of the department. Once the learning outcomes were refined, leveling of the learning outcomes took place to determine the best sequencing for the developmental approach that was desired for our learners. Packaging of courses then took place. New names were selected to reflect more current agriculture and related sciences concepts.

Under the former Agricultural and Extension Education (AEE) major, Ohio licensure requirements for the teacher education option tended to stifle flexibility for the other two options in the major (Extension Education and Leadership). To address this concern, the **Agriscience Education** curriculum is now designed to address the teacher licensure requirements for Ohio. Its curriculum was designed after taking into consideration the new Ohio Agricultural Science Pathways for High School curriculum. Consequently, the major now reflects options for the minor from which a student can choose a more in-depth pathway of study.

The new **Community Leadership** major was developed to meet the needs of students previously in the Extension Education and Leadership options of the AEE. This new major offer content to prepare learners for take leadership roles in agribusiness, agencies, and communities. Specializations within this major are **Community and Extension Education and Leadership**. The design of this major will better provide leaving the other programs with opportunities to better meet needs of learners in more creative/flexible ways.

The **Agricultural Communication** major was re-conceptualized with modern technology in mind.

We are maintaining our requirement for science credits across all majors. We have repackaged our internship requirements to engage learners in capstone experiences that provide more contextual, authentic learning related to current issues in agriculture and the related sciences.

The four minors in Human and Community Resource Development will be **Leadership Studies, Youth Development, Outreach Education, and Agricultural Communication**. Discussions among faculty resulted in identifying gaps in programming across the university in which members of the department had expertise. Consequently, the proposed minors provide value-added skills to many majors across the university community.

HUMAN AND COMMUNITY RESOURCE DEVELOPMENT – Undergraduate Semester Program Policies

- 1) **Transition policy** – In HCRD, student progress through the degree program requirements will be benchmarked using new learning outcomes written to become the foundation on which our new semester programs were built. Students will be expected to meet the new learning outcomes through a combination of courses in the quarter system, courses in the semester system, or formal and nonformal learning activities. The transition advising process began with the incoming freshman class in fall 2009 (the first class that would enter under quarters, but graduate under semesters). Using the CFAES 100 department sessions as our transition forum (a model that will continue), the department hosted a focus group to identify and respond to student transition concerns. The undergraduate coordinator also began individual advising sessions to address the student concerns. As information regarding Q2S was made available through college-wide meetings, the information was shared with students during undergraduate student organization meetings throughout the year. This year's CFAES 100 department sessions are being used to communicate our department's master plan of course changes (old and new names, numbers, offerings), and to assist students with comparing their quarter system advising sheets with the plans for the semester system. As always, individual advising sessions using student audits will continue. Recommended four-year course plans are included in this proposal.

- 2) **Meeting the tenets of the third writing course** – Since the third writing course requires a formative and summative feedback system of writing, providing feedback, rewriting and re-submitting, we have woven those tenets through assignments across the new curriculum. For example, the peer teaching assignment in the first year Introduction class (required of all students in the department), as well as the unit of instruction assignment in the third year methods class (Agriscience Education), subscribe to the third writing philosophy. In Agricultural Communication, the magazine writing course, AG COM 5135 naturally lends itself to the tenets of the third writing course. Students will be writing several magazine stories, with each story going through several drafts/revisions, resulting in a finished magazine written and edited by the students. Finally, because the capstone content in each major/specialization will be issues-based, relevant agricultural topics addressed during the internship experiences, the third writing tenets will be prevalent across the experience.

- 3) **Description of how the internship requirement is being met** – The internship requirements in HCRD are denoted on the new semester program sheets. Each major has credit hours required for an internship. For example, in Agriscience Education, and in Community and Extension Education, the spring semester of the fourth year of study will be spent in 12 credit hours of Practicum, of which 4 credits will comprise the internship requirement. In Agricultural Communication, students participate in a total of five hours of internship, divided into two separate experiences. The Leadership specialization requires that students complete three hours of internship.

OUTREACH EDUCATION MINOR

College of Food, Agricultural, and
Environmental Sciences
The Ohio State University

Scott Scheer, Coordinating Advisor
204 Ag. Administration Building
2120 Fyffe Road
614-292-6321
scheer.9@osu.edu

The minor in Outreach Education is for students who wish to become effective developers and implementers of non-formal educational programs in community settings. This minor would be especially helpful for students who wish to understand and integrate the concepts of leadership; program development and evaluation; non-formal education; communication and volunteer management. It will be useful for students interested in working with governmental, public and/or private organizations that provide outreach education related to youth development, human wellness, social sciences, food, agriculture, environment and other life sciences.

A minor in Outreach Education consists of 15 hours chosen as follows:

COURSES		Credit Hours
COMLDR 3530	Foundations of Personal and Professional Leadership	3
COMLDR 3330	Program Development and Evaluation	3
COMLDR 5330	Methods of Teaching in Non-Formal Learning Environments	3
COMLDR 5335	Volunteer and Human Resource Management	3
AGRCOMM 5530	Integrated Media in the Life Sciences	3

RESTRICTIONS AND GENERAL INFORMATION

1. This minor is not available to students majoring in Agricultural Communication, Agriscience Education, or Community Leadership.
2. At least six credit hours must be at the 3000 level or above.
3. A minimum overall GPA for courses comprising the minor shall be 2.00.
4. A minor should be declared at the time a student accumulates 60 hours.
5. A maximum of one course may overlap between the minor and the GE (Writing and Communication, Foreign Language, Literature, Visual and Performing Arts, Culture and Ideas, Historical Study, Quantitative Reasoning, Data Analysis, Natural Science, Social Science, Cross-Disciplinary Seminar, Service-Learning, Education Abroad).
6. Courses taken on a pass/non pass basis may not be applied to the minor.

The minor in agricultural and extension education is for students who are interested in preparing for educating audiences in non-formal settings. This minor would be especially helpful for students who wish to become extension educators in the areas of agriculture and natural resources, family and consumer science, youth development or community development. Students interested in working in educational endeavors with business/industry or other governmental agencies or organizations would also benefit. The minor is designed to teach the student program development and teaching methods and interpersonal skills which will enable them to effectively transfer their technical subject matter to others. This minor is appropriate for students in all agricultural departments and the Colleges of the Arts and Sciences.

The minor in agricultural and extension education consists of 22 credit hours of course work. If you follow the guidelines on this sheet in completing the minor, you should file the Minor Program Form with your college or school counselor. Any variation from the program described on this sheet needs the approval of the coordinating adviser.

Required courses (22 credit hours)

AEE 230 (3), 342 (5), 420 (3), 530.01 (5), 532 (3), 622 (3)
