Scott – It came to our attention at the Arts and Sciences Curriculum Committee that your 3410 is a 3 credit hour class but that it meets for 108 minutes 2 times per week, which is the equivalent of a 4 credit hour class, but it only counts for 3 credit hours. Can you explain what is going on and bring the two into alignment and let me know how. Also, I understand that the meeting times are non-standard. That is your prerogative, but it will make it harder for students to schedule. Again, please advise. Bruce
