Hi Andy,

I've had this email out to STEM faculty since you sent your initial request, so I'm assuming no.

Do you need me to write up something more formal to endorse/support/concur? Or will this come from you?

Thanks,  
Caroline

Hi Caroline,

Do you expect any other responses from T&L regarding this course?

My apologies for long overdue response, Caroline. The proposed course does overlap a bit with what we do, but I support the proposed course. We need courses that focus on informal science education, and we do not have the expertise in our own STEM education group. The course may also attract some undergraduate students to science teaching careers.

Hope that helps.

David

Dear Science Education Faculty,

Psychology is seeking concurrence on the course proposal, Pscyh 5700, Training in Science Education. Can you please take a look and let me know whether you concur, or if you have questions/concerns? I'll share these back to Andy Zircher.

Thanks,  
Caroline

Subject: Request for Concurrence

Jackie,

Arts and Sciences is reviewing a new course proposal, Psychology 5700, Training in Science Education Outreach. I wanted to check with you to make sure that it would not be duplicating one of your course offerings. Would you please take a look at the course via the link below and let me know whether or not you are able to concur with approval of the course?

<http://crmtview.asc.ohio-state.edu/currofc/docs/2745/Psych%205700%20New%20Course.pdf>

Thanks,  
Deborah
