

Fiscal Unit/Academic Org	UG International Studies Prog - D0709
Administering College/Academic Group	Arts and Sciences
Co-administering College/Academic Group	
Semester Conversion Designation	New Program/Plan
Proposed Program/Plan Name	International Studies / INTSTBS
Type of Program/Plan	Undergraduate bachelors degree program or major
Program/Plan Code Abbreviation	INTSTBS
Proposed Degree Title	Bachelor of Science

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program				42	
Required credit hours offered by the unit	Minimum				
	Maximum				
Required credit hours offered outside of the unit	Minimum				
	Maximum				
Required prerequisite credit hours not included above	Minimum			10	
	Maximum			10	

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

- Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
- Students demonstrate analytical and quantitative abilities, including mathematical and logical skills, appropriate to their specialization in International Studies.
- Students show an understanding of the diversity of cultures, ideas and practices across the world.
- Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? No

DIRECT MEASURES (means of assessment that measure performance directly, are authentic and minimize mitigating or intervening factors)

Classroom assignments

- Embedded testing (i.e. specific questions in homework or exams that allow faculty to assess students' attainments of a specific learning goal)

- Other classroom assessment methods (e.g., writing assignments, oral presentations, oral exams)

INDIRECT MEASURES (means of assessment that are related to direct measures but are steps removed from those measures)

Surveys and Interviews

- Student survey
- Student evaluation of instruction
- Student interviews or focus groups

Additional types of indirect evidence

- Curriculum or syllabus review

USE OF DATA (how the program uses or will use the evaluation data to make evidence-based improvements to the program periodically)

- Analyze and report to college/school
- Make improvements in curricular requirements (e.g., add, subtract courses)
- Make improvements in course delivery and learning activities within courses
- Periodically confirm that current curriculum and courses are facilitating student attainment of program goals

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? Yes

Students must complete the minimum General Education foreign language requirement (through 1103) before being admitted to the International Studies B.S. major. Each specialization in the International Studies major has two additional pre-major courses required. All are listed in Appendix A of the attached proposal.

Attachments

- BS Proposal Revised 09 27 13.doc: Revised proposal Sept 2013

(Program Proposal. Owner: Vankeerbergen, Bernadette Chantal)

- Security & Intelligence BS 2014-15.pdf: S&I Major Flier

(Semester Advising Sheet(s). Owner: Meltz, Richard Lee)

Comments

- The important revision of this proposal is the six approved minors associated with the International Studies BS major are from units offering only BS majors. This is to remove ambiguity as to the nature of the coursework in the minor.

Also added are the Statistics 1450 or 2450 data analysis classes to serve as GE data analysis classes and as premajor courses for the International Studies BS majors.

For the convenience of the review committees, an updated sample Security & Intelligence major flier is also attached. *(by Meltz, Richard Lee on 09/30/2013 03:33 PM)*

- See 9-30-13 e-mail to Richard Meltz. *(by Vankeerbergen, Bernadette Chantal on 09/30/2013 12:20 PM)*

- Recommend deleting earlier SBS Panel letter in favor of expectations of SBS Panel letter for this revised version. *(by Haddad, Deborah Moore on 07/28/2013 04:23 PM)*

Proposal for the Establishment of a New Undergraduate Major:

International Studies (Bachelor of Science)

I. This proposal for a new undergraduate major is transmitted by the college to the Office of Academic Affairs. The proposal must be accompanied by a letter from the dean(s) that describes college resources committed to the program and the relationship of the new major to other priorities of the college.

II. GENERAL INFORMATION

1. Give the name of proposed major:

International Studies

2. State what degree students completing the major will receive:

Bachelor of Science

3. State the proposed implementation date:

Autumn 2014

4. Identify the academic units (e.g., department, college, etc.) responsible for administering the major program.

International Studies is solely responsible for the administration of the major.

III. RATIONALE

5. Describe the rationale/purpose of the major.

Divided into ten individual specializations, International Studies is a major in which regions of the world and/or challenges and problems transcending national and regional borders are studied from an interdisciplinary perspective. It is a major that is already offered as a B.A. and the courses that students take in it are largely drawn from foreign languages, history and the social sciences. The basic reason for offering a B.S. version of the undergraduate degree is to allow and encourage students to broaden, deepen and enrich their interdisciplinary education by expanding the scope of interdisciplinarity through which individual specializations can be studied.

This proposal has been occasioned by a number of considerations. Principal among them is the recognition that a fruitful, and innovative, marriage can be arranged between the traditional disciplines of regional and thematic studies found in international studies programs and a number of the relatively “hard” sciences. In allowing unprecedentedly systematic and detailed mapping, for example, the discipline of Geographic Information Science can provide new insights into mainstream social science phenomena like population flows, economic investment patterns, and political conflict patterns. It also allows the mapping of such changes over time. Similarly, Development Studies majors seeking a career in medicine or humanitarian work in low-income countries can acquaint themselves with the field of public health and with the major public health issues these countries face.

A second consideration is equity. As things stand, a pre-med student choosing to major in International Studies cannot be awarded a B.S. despite having fulfilled all the GEC requirements for the B.S. degree. Similarly, a student declaring their major in a science and their second major in International Studies can gain a B.S. degree, but if that same student were to declare International Studies as his first major and the science as his second, he would not be eligible for the B.S. degree despite having completed the same course work for the two majors.

Third, all the indications are that a stronger scientific background in a major program that is already recognized as being intellectually demanding will enhance the competitiveness of its graduates in a labor market that increasingly demands technical and technological expertise in addition to the language and culture skills traditionally associated with an international studies training. Perhaps the most eloquent articulation of this perspective was given by William C. Kirby, Harvard’s former Dean of the Faculty of the Arts and Sciences in his commentary on *A Report on the Harvard College Curricular Review*, which proposes “new emphases upon international education and the sciences.” He argued:

Because science and technology are transforming our world at the practical and most philosophical levels, the report proposes that all Harvard College students receive an education in the physical, applied and life sciences that is as broadly shared as the humanities and social science components of a liberal education. “We need to assure all of our students of an education in – not just an introduction to – the physical, applied, and life sciences (Harvard Gazette, April 29, 2004).

Finally, the introduction of a BS in International Studies substantially advances the College of Arts and Sciences’ Strategic Plan in two critical respects. One, it “promotes a spirit of collaboration and cooperation that embraces the diversity of scholarship in the College and increases opportunities for interdisciplinary and cross-disciplinary research and teaching. Indeed it takes collaboration and cooperation to a higher level by providing opportunities for students to take courses in the Colleges of Agriculture, Business, and Public Health as well as the Arts and Sciences. Two, it helps to “internationalize the Arts and Sciences curriculum and programs” by making an international education available to students in the Division of Natural and Mathematical Sciences in particular.

6. Identify any unique characteristics or resources that make it particularly appropriate for Ohio State to offer the proposed major.

The size and academic diversity of Ohio State makes it an ideal location in which to offer an interdisciplinary International Studies degree that allows for choice between a B.A. and B.S. as well as in the study of six world regions and five international themes. To expand beyond the current BA offering to allow students to opt for a BS broadens the breadth of the University's expertise on which students can draw. It also moves undergraduate education in a truly interdisciplinary direction in that it promises to build bridges between departments and colleges that have to this point remained separate.

7. Cite the benefits for students, the institution, and the region or state.

The principal benefits to students of offering a B.S. degree is that it adds an additional dimension of rigor to an already challenging and first-class liberal arts education with an international focus and it gives students a wider range of skills that they can exploit in the labor market. For the institution, it is expected that the appeal of a program that has traditionally attracted to the University higher-than-average high school students will become as attractive to similarly talented students seeking a more scientifically grounded undergraduate education. Finally, the benefits for central Ohio and the state more generally are that the additional range of choice in International Studies might help to stop some of our stronger high school students from moving out of state for their undergraduate education, that it will provide well-trained graduates for the local and national labor markets and that, through internships and general outreach, links between the University and government and business communities will be strengthened.

8. List similar majors offered in both public and private institutions in Ohio and the U.S. Explain how these majors compare to the one proposed.

An internet survey indicates the BS degree would have no competition in Ohio. While Cincinnati, Cleveland State, Kent State, Miami, Ohio, and Wright State universities all offer some form of undergraduate International Studies degree, none offers one that culminates in a B.S.

Within the Big Ten, a specific BS option could not be found, although a number of sites failed to specify a BA either. This problem was common with many other universities as well. When International Studies is a secondary major (and can only be taken as such) to a primary science major, the BS degree is awarded at Iowa State.

A national search unearthed a BS in individual specializations that we have at OSU (for example, Global Security & Intelligence Studies at Embry-Riddle University and Diplomacy and International Relations at Seton Hall), and generic B.S. degrees in International Studies at Rochester Institute of Technology, the Universities of Kentucky and Utah, and Washington University in St. Louis. As is the norm with International Studies degrees in general, their curriculum content varies enormously.

In short, there are B.S. options out there, but none in Ohio. Kentucky appears to be the closest university to offer a BS. When account is taken of the breadth and diversity of science education at Ohio State that could be linked with International Studies, the university could become a national leader in the provision of a high-quality B.S. education across a wide range of specializations in International Studies. If it acts expeditiously, it will certainly be ahead of the curve.

9. Cite the enrollment patterns of similar majors in Ohio or in the United States.

None

10. Describe career opportunities and/or opportunities for graduate or professional study available to persons who complete the major.

This major will prepare students for a wide range of career opportunities after graduation. On the one hand, they will be well-prepared for entry into law or business school, disciplinary or interdisciplinary masters or PhD programs, and service overseas. On the other hand, their science-based, internationally-focused education should make them attractive to the military, government, the private sector and international organizations of various kinds.

11. Describe any licensure or certification for which this major will prepare students.

None.

IV. GOALS/OBJECTIVES/EVALUATION

12. Provide a learning outcomes assessment plan for the major program.

A. State the general and specific educational goals and objectives of the major.

Program Learning Goals

1. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
2. Students demonstrate analytical and quantitative abilities, including mathematical and logical skills, appropriate to their specialization in International Studies.
3. Students show an understanding of the diversity of cultures, ideas and practices across the world.

4. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

B. Indicate the methods that will be used to assess whether the educational goals and learning objectives are being met.

- i. Align an evaluation method with educational objective and expected outcome students should achieve.
- ii. Specify the criteria that will be used to evaluate successful student learning.

A combination of direct and indirect measures will be used to determine the extent to which the International Studies program achieves its learning goals.

Direct measure: Learning goal 1 under both the BA and BS schemes will be measured by completion of the required pre-major and (set of four) foundation courses in each specialization with a grade of C- or higher in every course and by embedded questions in selected courses.

Direct measure: Learning goal 2 under the BA scheme will be measured by completion of at least a minor in a foreign language with an overall GPA of 2.0 or higher and no less than a C- in any individual course. Learning goal 2 under the BS scheme will be measured by completion of one of six eligible minor programs with an overall GPA of 2.0 or higher and a grade of C- or higher in every course.

Direct measure: Learning goal 3 will be measured by means of embedded questions in IS courses and, in part, by completion of relevant study abroad, internship (at home or abroad) or research experiences among program majors.

Indirect measure: Learning goal 4 will be measured by asking students to complete a questionnaire regarding their career plans and the degree to which their major has prepared them for their chosen career their compulsory meeting with an IS advisor to complete their application to graduate. University records permitting, this information will be supplemented by a survey of IS majors five years after their graduation.

Indirect measures: Learning goals 1, 2 and 3 under both the BA and BS schemes will be evaluated by asking students their opinion on the progress they have made over the course of their undergraduate career to meeting IS program goals. This opinion will be gathered in three separate ways:

- 1) When filling out their application to graduate, students will be asked to respond to a small number of written questions aimed explicitly at measuring perceived achievement of individual programmatic goals. They will, for example, be asked whether they have a job waiting for them (and where) or whether they have been accepted into a graduate program (and which program).

- 2) A wider-ranging battery of such questions will be included on the ASC graduating senior exit survey conducted at the end of each semester. Many of these questions have been asked in past rounds of the ASC survey. The questions will differ somewhat for BA and BS graduates.
- 3) Two years after the introduction of the BS option, two separate focus groups, one for BA and one BS Spring graduates, will be commissioned for each of the ensuing four years. Focus groups are invaluable for enabling the research to go beyond broad statements and approval and disapproval and search for more nuanced perceptions of strengths and weaknesses in the IS program vis-à-vis its learning goals. After four years, enough information will have been collected to suggest beneficial reforms to the structure of the program and the focus groups will be held only every third year thereafter.

C. Provide the time line over which the assessment plan will be implemented.

Year 1: Monitor enrollment patterns and graduation grades; student surveys; and embedded questions in selected IS courses.

Year 2: Monitor enrollment patterns and graduation grades; student surveys; and embedded questions in selected IS courses.

Year 3: Monitor enrollment patterns and graduation grades; student surveys; embedded questions in selected IS courses; and focus groups

Year 4: Monitor enrollment patterns and graduation grades student surveys; embedded questions in selected ARE courses; and focus groups

D. Describe how outcomes information will be used to improve student learning and program effectiveness.

The materials and information gathered from these assessment exercises will be reviewed annually by the Director and his Steering Committee. They will help to shape recommendations for improvement to the program made to its Oversight Committee.

V. RELATIONSHIP TO OTHER PROGRAMS

13. Describe current major and minor programs in the department(s) and how they relate to the proposed major.

The proposed major is simply a BS version of the ten 30-hour BA specializations that already exist in International Studies. There are six area studies specializations – Africa, East Asia, Latin America, Middle East, Slavic and Eastern Europe and Western Europe – and four thematic ones – Development, International Relations & Diplomacy, Security & Intelligence and World Economy & Business.

With semesters, each BA student will choose to major in one of these specializations and will also be required to take a minor in a foreign language. Students can double major (or do a major and a minor) in International Studies but must choose one major from the area studies group and one from the thematic group

14. Identify any overlaps with other programs or departments within the university. Append letters of concurrence or objection from related units.

The IS degree is by definition interdisciplinary in character so that there is some overlap with a large number of other programs and departments in several colleges insofar as IS uses a small number of selected courses from other units in its major and minor programs. This overlap does not amount to duplication, however, since students take only selected courses in those departments and the departments in turn receive the FTE credit for the student enrollment. Put differently, IS does not compete with majors and minors offered by other programs or departments, but rather it complements them, and this is evident in the cooperation between them in course and program development.

There isn't overlap in programs.

15. Indicate any cooperative arrangements with other institutions and organizations that will be used to offer this major.

None

16. Specify any articulation arrangements (direct transfer opportunities) with other institutions that will be in effect for the major.

None

17. Provide information on the use of consultants or advisory committees in the development of the major. Describe any continuing consultation.

IS did not have its own faculty during the period that this proposal was conceived and formulated. The program's curricular responsibility is to the Social and Behavioral Sciences in the College of Arts and Sciences, the dean of which appoints an inter-collegiate Oversight Committee. Its current members come from the ASC's three Divisions and from the Colleges of Business and Agricultural and Environmental Sciences. The Director of the

Office of International Affairs and the Vice Provost for Global Strategies and International Affairs are *ex officio* members. The IS Director initiated this BS proposal, formed a Steering Committee to aid in its formulation, and discussed it extensively with the Oversight Committee, which endorsed it.

18. Indicate whether this major or a similar major was submitted for approval previously. Explain at what stage and why that proposal was not approved or was withdrawn.

This major was first proposed in 2012, but was withdrawn because of the uncertainty surrounding what constituted a BS minor. Departments offering both BA and BS majors do not make this same distinction when it comes to their minors. The decision was taken to include in this proposal minors from units that offer only a BS major. Others can be added later as their BS credentials are confirmed.

19. Indicate where students will be drawn from, e.g., existing academic programs, outside externally. of the University, etc. Estimate the mix of students entering the major internally and

In a Spring 2010 online survey of current IS majors, 68 per cent of respondents agreed that a BS option should be created as part of the conversion to semesters. Thus, the B.S. option should prove attractive to students who would otherwise enroll for the BA degree. It is also anticipated that the BS will recruit students currently in the sciences who would not have considered IS as a second major as long as it offered only a BA. Our main intent, however, is to make IS a well-rounded, nationally competitive program that will attract high-ability students who would not otherwise have come to Ohio State.

VI. STUDENT ENROLLMENT

20. Indicate the number of students you anticipate will be admitted to the major each year.

	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>
Full-time	10	15	25	40
Part-time	(none)			

Estimated Summer enrollments:

	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>
Full-time	5-10	5-10	5-10	5-10

Part-time

(none)

VII. REQUIREMENTS

21. List the courses (department, title, credit hours, description) which constitute the requirements and other components of the major. Indicate which courses are currently offered and which will be new. Append a semester-by-semester sample program and all New Course, Course Change, and Course Withdrawal forms necessitated by the implementation of the proposed major.

The International Studies program currently offers a BA in 10 separate majors. The BS option will be available in all of them. Rather than list the very large number of individual courses, I have appended the curriculum for each separate BA major to this proposal (see Appendix A). The courses in each of them are all three hours in length and they fall into three categories: “Required Foundations” (4 courses – no choice), “Critical Perspectives” (4 courses – limited range of choice), and “Electives” (2 courses – wider range of choice). This format will be replicated for the BS option with the one exception that the number of elective courses will be reduced to one in order to allow for the extra foreign language course that all BS majors will have to take. To give some idea of the choice available to IS majors, I have aggregated across all 10 majors and grouped the courses in each of the three categories according to the offering unit and the number it offers. It should also be noted that this list of departments is incomplete insofar as all IS majors (BA and BS) will be required to complete at least one foreign language course beyond the GE minimum requirement. All the foreign language departments in the Arts and Humanities should, therefore, be considered as contributing similarly to the IS program.

Differences in GE Requirements for the BA and BS degrees:

The differences here are established by the College of Arts and Sciences, and they lie mainly in the requirements for the Mathematics GE and for the Natural Sciences GE. Bachelor of Science programs require a calculus course (Math 1151 is the minimum), while Bachelor of Arts programs do not. Bachelor of Arts programs require 10 hours of science with at least one course in Physical and one course in Biological science, and at least one course of which must be a lab course. Bachelor of Science programs require 2 lab courses among the 10 required hours. Additional details regarding differences between the B.A. and the B.S. general education requirements can be found at <http://ascadvising.osu.edu/gec/combined>.

Differences in IS Requirements for the BA and BS degrees:

All BA majors in the International Studies program are required to do a minor in a foreign language. BS majors, in contrast, will only be required to complete one foreign language course beyond the basic GE foreign language sequence, and that course will be accommodated by reducing the number of electives they take in the major from two to one. Where the BS differs from the BA is that the foreign language minor is replaced by a 12-15 hour minor chosen from the six minors outlined on pp. 12-13 of this proposal and mapped more fully in Appendix C.

Initially, six minor programs will be eligible for the International Studies BS. Each of these is offered either through a department with only BS major program(s) or its major program

counterpart is offered only as a BS major. Additional minor programs may become available to International Studies BS students in the future as demand and curricular appropriateness warrant such consideration by the Director and the Oversight Committee. Minor program requirements are identified in Appendix C. For those minor programs which do not require a data analysis course, students will be required to add Statistics 1450 or 2450 to their programs.

In the following summary, the eligible minor programs are attached to appropriate International Studies specializations:

- 1) **Agribusiness** – This minor introduces students to the business concepts important for effective agribusiness decision making and the role of economic constraints in the efficient operation of any agribusiness firm. Emphasis is placed on applying concepts and skills to the food system. It should be especially attractive to Development and World Economy & Business majors as well as to Security & Intelligence majors interested in food security.
- 2) **City and Regional Planning** – This minor introduces students to the history, theory or methods of city and regional planning. It focuses on the future and quality of life in cities, towns and, regions. It should be especially attractive to majors in the Development specialization as well as those interested in urban life in specific regions of the world.
- 3) **Environmental Science** - This minor introduces students to the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Dealing with issues ranging from global climate change through environmental sustainability to food security, this minor should be of broad appeal across IS specializations.
- 4) **General Business** – This minor provides students in majors other than business with an understanding of the language and basic concepts of business. It consists of five courses , one from each of the areas of accounting, finance, management and human resources, marketing, and operations management. It should prove especially attractive to IS majors in the World Economy & Business specialization as well as to those aspiring to a private sector career in specific world regions.
- 5) **Geographic Information Science** – This minor will provide skills in mapping, geospatial analysis, geospatial modeling, environmental modeling, and statistical methods. Such skills should prove especially attractive to majors in the four thematic specializations. They will likely also boost their competitiveness on the labor market.
- 6) **Global Public Health** - This minor introduces students to health issues affecting populations in the US low-to-middle-economic status countries worldwide. It discusses the type and scope of factors that contribute to public health issues and approaches to

intervene and address these issues. This minor should prove especially attractive to majors in the Development, International Relations & Diplomacy and Security & Intelligence specializations.

22. State the minimum number of credits required for completion of the major.

The BS in International Studies will be a 42-45 hour major (including the 12-15 hour minor).

23. State the average number of credits expected for a student at completion of the major.

As above (question 22)

24. Give the average number of credits taken per quarter by a typical student. Estimate the average for each year.

<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>
---------------	---------------	---------------	---------------

Full-time

Part-time

25. Give the number of credits students are required to take in other departments.

35 credit hours. Students have several choices of courses. See Appendix A: Requirements

26. Give the number of credits a typical student might take as electives in other departments.

10 credit hours minimum of electives, within each specialization, are required. See Appendix A: Requirements for a list.

27. Describe other major requirements in addition to course requirements, e.g., examination, internships, final projects.

Students may participate in internships and study abroad. Equally, they may opt to do a senior thesis or undergraduate research, but none of these is required to graduate.

28. Identify from which specialized professional association(s) accreditation will be sought. List any additional resources that will be necessary to gain such accreditation.

None

29. Describe the number and qualifications of full-time and part-time faculty. List current faculty and areas of expertise. Describe the number and type of additional faculty needed.

CURRENT

<u>Name</u>	<u>Area of Expertise</u>	<u>Full- or Part-Time</u>
-------------	--------------------------	---------------------------

Again, the complexity of the IS program (with its ten majors) militates against drawing up a list of the very large number of faculty who will be involved in delivering the BS degree in International Studies. Bearing in mind that the courses IS majors take in departments are by and large upper level and usually taught by faculty, Section VII above will give you some idea of the number and range of faculty members contributing to the IS program. IS currently has three faculty appointed jointly with other tenure-initiating units (Economics, Geography and Political Science). These individuals owe 50 per cent of their teaching responsibilities to International Studies. In looking at the information in Section VII, it should also be remembered that courses offered under the IS program are themselves often taught by faculty “on loan” from departments.

PROPOSED ADDITIONAL FACULTY

None

30. Describe existing facilities, equipment, and off-campus field experience and clinical sites to be used. Indicate how the use of these facilities, equipment, etc. will impact other existing programs.

No additional facilities, equipment, or off-campus field experience required.

31. Describe additional University resources, including libraries, that will be required for the new major.

None.

32. Describe the major as it would appear in the appropriate college bulletin.

The International Studies program offers two separate majors, a BA and a BS. The core of the two degrees is similar in that each places an emphasis on enhanced knowledge of world regions and languages or on transcendental problems in international affairs. The BA degree places a heavy emphasis on foreign language proficiency, while the BS complements an international education with the analytical and quantitative skills provided by the more scientifically oriented education found in minors like Environmental Science, Geographic Information Science, and Global Public Health. Both the BA and BS degrees are designed for students whose educational and career plans include an international component.

APPENDIX A

INTERNATIONAL STUDIES PROPOSED INTERDISCIPLINARY BACHELOR OF SCIENCE MAJOR

The proposed Bachelor of Science program in *International Studies* is actually 10 interdisciplinary major programs, each of which follows the same curricular structure. Each program is focused either on a region of the world or on a thematic problem transcending national borders and world regions. International Studies majors pursuing the Bachelor of Science degree will be required to follow the B.S. general education for Math and Science, and will take one course beyond the minimum language requirements for the B.S. GE. The International Studies B.S. major also requires that students choose a minor from an approved list, for which the B.S. GE will prepare students.

The curricular structure for the proposed Bachelor of Science in International Studies is as follows:

- Pre-Major Courses 10 Hours
- Required Foundations 12 Hours
- Critical Perspectives 12 Hours
- Language Course Above 1103 3-4 Hours
- Electives 3 Hours
- Approved Minor 12-15 Hours

In the following tables, course options and requirements for each program are provided.

African Studies Program

AFRICAN STDS	COURSE	DESCRIPTION	PREREQUISITES
Pre-Major Courses (10 Hours)	Econ 2001.01 or 2001.02: <i>Principles of Microeconomics</i>	Introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in econ.	2001.02: Declared major or minor or permission of instructor.
	History 2303: <i>History of Contemporary Africa, 1960-Present</i>	Africa from independence to the present. Contemporary African societies, cultures, economics, and politics from independence to the present.	English 1110.xx (3).
	Completion of 1103 or equivalent of an approved foreign language		
Foundation (12 Hours)	Int'l Stds 2000: <i>Introduction to Africa</i>	Interdepartmental survey of the land, people, history, politics, social institutions, economic development, literature and the arts.	
	AAAS/Int'l Stds 4515: <i>Ethnicity, Development & the State in Sub-</i>	Takes a theoretical and comparative historical approach to analyzing problems of development	Soph standing or above.

AFRICAN STDS	COURSE	DESCRIPTION	PREREQUISITES
	<i>Saharan Africa</i>	and ethnic conflict in Sub-Saharan Africa.	
	AEDECON/Int'l Stds 4536: <i>Economic Development of Sub-Saharan Africa</i>	Issues shaping economic development and stagnation in contemporary Africa such as population growth, agricultural development, industrialization, trade, structural adjustment and environmental issues.	AEDEcon 2001 (200) or Econ 2001 (200) (3).
	AAAS 4530: <i>African Political Economy</i>	A comparative examination of problems of nation-building and national integration faced by selected nations in the postcolonial period.	
Critical Perspectives (Choose 4 – 12 Hours)	AAAS 3310: <i>Global Perspectives on the African Diaspora</i>	Study of historical processes, key figures and ideas, and cultural expressions of the worldwide dispersion of people of African descent from different times and places.	
	AAAS 4527: <i>Pan-Africanism & Nationalism</i>	Modern nationalist and Pan-Africanists movements in Africa and Black Diaspora; parallels and contrasts between African political and social class protests within postcolonial black states.	
	AAAS 4557: <i>History of South Africa</i>	An examination of the political and social developments in South Africa from the 19th century to the present.	
	AAAS 4570: <i>Theorizing Colonialism in the Postcolonial</i>	An analysis of debates and theories in postcolonial studies as a way to understand the social, ideological, and political dynamics and processes of colonialism and decolonization.	AAAS 1122 (3), or permission of instructor.
	AAAS 5485.01: <i>Southern Africa: Society & Culture</i>	A comparative study of the social, political, cultural, and economic changes in Africa and the impact on contemporary black world. A study of the social and cultural developments in Southern Africa, and the environment.	English 1110 (110) (3).
	AAAS 5485.02: <i>West Africa: Society & Culture</i>	A comparative study of the social, political, cultural, and economic changes in Africa and the impact on contemporary black world. A chronological and interdisciplinary exploration into the cultures and societies of West Africa.	English 1110 (110) (3).
	Anthro 3418: <i>Regional Survey of the Anthropology of Africa</i>	Overview of anthropological studies of traditional African societies, with themes of European colonialism,	

AFRICAN STDS	COURSE	DESCRIPTION	PREREQUISITES
		kinship, social organization, economics, and politics.	
	Comp Stds 3674: <i>African Religions</i>	Survey of African traditional religions and their interaction with Islam and Christianity in Africa and the diaspora; emphasis on cosmologies, myth, ritual, ethics, and witchcraft.	Comp Stds 2270 (270) recommended. English 1110 (110) or equiv. (3).
	Geog 5752: <i>South Africa: Society & Space</i>	South Africa's racialized geographies, patterns of urbanization and uneven development, and the role of social struggle in their production.	
	History 4300: <i>Readings in African History</i>	Advanced readings on selected topics in African History.	Prereq or concur: Any 3000-level History course, and English 1110.xx (3).
	Int'l Stds 4000: <i>Comparative Ethnic System, States, & Identity</i>	Comparative study of ethnic systems on five continents, with analysis of patterns of identity politics, through case studies of ancient, modern and newer states.	Soph standing.
Electives (Choose 1 3 Hours)	AAAS 3342H: <i>Music, Religion, and Ritual in Africa</i>	Survey of variety and interaction of musical and religious expressions in selected African societies, focusing on traditional contexts and contemporary Christian and Islamic examples.	Honors standing, and AAAS 1101 (101) (3).
	AAAS 3376: <i>Arts & Cultures in African & the Diaspora</i>	An overview of African and African diaspora cultures from a historical perspective. Cultural media will include art, literature, film, dance, and photography.	
	AAAS 3451: <i>Themes in Francophone African & Caribbean Literature</i>	An inter-disciplinary investigation of the representations of race, religion, identity, nation, and nationalism in Francophone African and Caribbean literature.	
	AAAS 4460: <i>Theories in Africana Literature</i>	Examination of various theoretical perspectives that underlie African and Caribbean literature in both its oral and written expressions.	
	AAAS 4565: <i>Topics in African Diaspora Studies</i>	Selected topics which examine the origins, dimensions, and dynamics of the African Diaspora; topics vary each term.	AAAS 3310 (3).
	AAAS 4584H: <i>Literature & Modern Experience in Africa</i>	A comprehensive view of the dominant thematic directions of African literature in the European languages, and their formal realization in aesthetic and	Honors standing.

APPENDIX C

The Ohio State University
College of Food, Agricultural, and Environmental Sciences
Approved by the College of Arts and Sciences

Agribusiness Minor (AGBUSAE-MN)

Gina Hnytka, Assistant Coordinating Advisor, 614-292-6432, hnytka.4@osu.edu, 240 Ag. Admin. Bldg.
Dr. Brian Roe, Coordinating Advisor, 614-688-5777, roe.30@osu.edu, 225 Ag. Admin. Bldg.

Purpose: Students will understand: (1) the business concepts important for effective agribusiness decision-making, and (2) the role of economic constraints in the efficient operation of an agribusiness firm. Emphasis is placed on applying concepts and skills to the food system. Firms included in the food system are chemical companies, bio-engineering firms, farms, agricultural cooperatives, international commodity trading firms, and international food distribution and retailing companies.

Requirements & Responsibilities: Students are responsible for planning their program to achieve **12 hours. No more than 2 courses outside of AEDEcon can be counted toward the minor.** NO waiver will be granted for the maximum number of non-AEDEcon courses. AEDEcon 2001 (200) or Econ 2001 (200) is a prerequisite. At least six (6) credits must be at the 3000 level or above.

Required Courses (9 hours):

AEDECON 3101 (3); AEDECON 3102 (3); AEDECON 2105 (3) or ACCT & MIS 2200 (3)

Select 3 additional hours from the following courses, keeping in mind that no more than 2 courses can be non-AED Econ (this includes Accounting) and the minimum number of credit hours needed is 12:

AEDECON 3103 (3), 3104 (3), 3121 (2), 3122 (2), 3123 (2), 3128 (2), 3141 (2), 3160 (2), 4310 (3), 4320 (3), 4540 (3), 5125 (2).

AEDECON/INTSTDS 4532 (3), 4535 (3), 4536 (3), 4537 (3), 4538 (3), 4539 (3).

AEDECON 3170 (3) or BUS-FIN 3500 (1.5).

ECON 2002 (3)

Arts and Sciences minor program guidelines

The following guidelines govern minors:

Required for graduation No

Credit hours required A minimum of 12 credit hrs (some minors require more). 1000 level courses shall not be counted toward the 12 credit hr minimum.

Transfer credit hours allowed No more than one half of the credit hours required on the minor.

Overlap with the GE Permitted, unless specifically disallowed by an individual minor program.

Overlap with the major Not allowed and

- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

Overlap between minors Each minor completed must contain 12 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

Minor Approval The minor program description sheet indicates if the minor course work must be approved by:

- The academic unit offering the minor, or
- A college/school counselor.

Filing the minor program form The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

Changing the minor Once the minor program is filed in the college office, any changes must be approved by:

- The academic unit offering the minor, or
- A college/school counselor (depending on the minor).

City and Regional Planning Minor

City and Regional Planning Section
Knowlton School of Architecture
100 Knowlton Hall, 275 W Woodruff Avenue
Columbus, Ohio 43210
614-292-1012; knowlton.osu.edu/crp-minor

The City and Regional Planning (CRP) Minor ensures that students will gain some exposure to history, theory or methods in city and regional planning. City and regional planning is a vibrant field that focuses on the future and quality of life in cities, towns, and regions. The curriculum is designed to be flexible to allow students to take courses that most meet their interests in city and regional planning.

The minor consists of 12 credit hours from the section's offerings. At least 6 credit hours must be in courses at the 3000-level or above.

No permissions or approvals are required from the section to pursue the CRP Minor, though students should alert college or school counselors of their intent to complete the minor, so that the correct plan can be assigned to their records and tracked in the degree auditing system.

Required courses - 6 credit hours:

CRPlan 2000: Introduction to City and Regional Planning, 3
CRPlan 4597: The Global Environment in Planning, 3

Electives - 6 credit hours:

The remaining credit hours are to be chosen from any City and Regional Planning courses at the 2000, 3000, 4000 or 5000 level. Some of these courses have prerequisites. Students would need to consider whether they meet the prerequisites before selecting the electives that are most appropriate for their interests.

City and Regional Planning Minor program guidelines:

Required for graduation No

Credit hours required A minimum of 12 credit hrs. 1000 level courses shall not be counted toward the 12 credit hr minimum.

Transfer credit hours allowed No

Overlap with the GE Permitted, unless specifically disallowed by an individual minor program.

Overlap with the major Not allowed and

- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

Overlap between minors Each minor completed must contain 12 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

Minor Approval The minor program description sheet indicates if the minor course work must be approved by:

- A college/school counselor.
- Any substitutions to the course work on this minor sheet must be approved by the academic unit offering the minor, or the student's minor program advisor.

Filing the minor program form The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

Changing the minor Once the minor program is filed in the college office, any changes must be approved by:

- The academic unit offering the minor.

Environmental Science Minor

Mark Giese, Minor Coordinator
210C Kottman Hall, 2021 Coffey Rd
Giese.1@osu.edu
614-292-2265

The minor in environmental science provides students with an opportunity to analyze interactions between the physical, chemical, and biological components of the environment with relation to human and ecological health, and to understand many of the most important issues confronting the world today. Environmental issues such as global climate change, safe water quality, wetland reconstruction, environmental sustainability, ecosystem habitat restoration, biological diversity, hazardous contaminant pollution of soil and water, carbon sequestration, and food security are challenging areas of critical importance in environmental science. The Environmental Science minor introduces students to the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. The ES minor will be useful to students majoring in pure and applied physical sciences including Agricultural Sciences, Earth Sciences, Biological Sciences, and providing a complement to social science programs.

A total of 15 semester hours are required for this minor.

Required Environment and Natural Resources Courses (3 hr):

ENR 2100 (3)

Controlled Electives: Introductory Coursework (Choose at least two):

EEOB 3410 (4), ENR 3000 (3), ENR 3300 (3), ENR 3400 (3), 3500 (3)

Controlled Electives: Ecosystem Science (add courses to meet the 15 hr. minimum requirement):

EarthSci 2203 (3), 2204 (3), 2206 (3), 4450 (3), 5203 (3)

ENR 3322 (3), 4260 (3), 5220 (2), 5222 (3), 5225 (3), 5250.01 (3), 5263 (3), 5265 (2), 5266 (3), 5273 (3), 5279 (3), 5280 (4), 5345 (4), 5362 (3)

ENR/EarthSci 2155 (3)

Geog 2800 (3), 2960 (4), 3800 (3), 3900 (3), 3980 (3), 5402 (3), 5801 (3), 5802 (3), 5900 (3)

**The Ohio State University
College of Business
Approved by the College of Arts and Sciences**

General Business Minor

Fisher College of Business, Undergraduate Programs and Advising Office, 120 Schoenbaum Hall, 210 Woodruff Avenue, Columbus, Ohio 43210; 614-292-2715; fisherundergrad@fisher.osu.edu

The General Business Minor is designed to provide students in majors other than business with an understanding of the language and basic concepts of business. The minor consists of five courses, one each from the areas of accounting, finance, management and human resources, marketing and operations management. This program is available to students on all Ohio State campuses.

The General Business Minor does not have an application process. In order to graduate with a Business Minor, you must fulfill the guidelines listed on the curriculum requirements page. Upon completing the guidelines, a student needs only to file the Business Minor Program Form with their college office. No approval from the Fisher College of Business is required.

**Some courses in this minor may have pre-requisites. Please consult the course bulletin before enrolling in courses.*

Required courses

Before taking the minor courses, it is required that each student takes the following courses:

- College algebra (Math 1130 or 1148 or equivalent or higher)
- Microeconomics (Econ 2001.01 or equivalent)
- Basic computing (CS&E 1110 or higher)

In addition, the accounting course is prerequisite for the finance course.

Courses

All five courses must be completed to satisfy minor requirements. Variations in the program are generally not permitted; any variations must be approved by the Associate Director of General Business Programs.

The minor is not open to students majoring in business or intending to major in business. Minor courses do not count toward a business degree and do not serve as prerequisites for further study in business.

AMIS 2000 - Foundations of Accounting and MIS - 3 credit hours

A survey of accounting for non-business students; financial statements and analysis; accounting for assets, liabilities and owners equity; and elements of managerial accounting.

BUS-FIN 3120 - Foundations of Finance - 3 credit hours

Survey of topics in finance for non-business students including: discussion of investment, time value of money, financial markets, financial institutions, risk and return, corporate and international business.

BUS-MHR 3100 - Foundations of Management & Human Resources - 3 credit hours

Survey of topics in management and human resources for non-business students. The material includes a discussion of organizational behavior, human resource management and labor markets.

BUS-MGT 3130 - Foundations of Operations Management - 3 credit hours

A survey of operations management for non-business students including discussion of operations management issues in both manufacturing and service organizations including management and purchasing.

BUS-M&L 3150 - Foundations of Marketing - 3 credit hours

A survey of marketing for non-business students including discussion of marketing practice tools and concepts and their applications in profit and non-profit organizations.

Exclusions

The minor is not open to students majoring in business or intending to major in business. Minor courses do not count toward a business degree and do not serve as prerequisites for further study in business.

General Business minor program guidelines

Required for graduation No

Credit hours required 15 credit hours

Transfer credit hours allowed A maximum of 6 credit hrs.

Overlap with the GE Not permitted

Overlap with the major

Not allowed and

- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

Overlap between minors Each minor completed must contain 12 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

Minor Approval

A student who completes the minor following the above guidelines need only file their college's Minor Program Form with their college office. No approval from Fisher College of Business is required.

Filing the minor program form The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

Changing the minor Once the minor program is filed in the college office, any changes must be approved by:

- The academic unit offering the minor, or
- A college/school counselor (depending on the minor).

Overview

The GIScience minor aims to provide fundamental training in GIScience that is needed for students from various disciplines to advance their career. The curriculum of the GIScience minor is based on that of the GIScience major, which includes a diverse range of courses that can be selected by students to count toward the proposed minor degree. These classes will provide students with extensive experience in mapping, geospatial analysis, geospatial modeling, environmental modeling, and statistical methods. Most the courses include a lab companion to give students hands-on training.

Minor Requirements

The minor in GIScience requires a minimum of 15 semester credit hours of course work.

Required: 9 hours

Students must take GEOG 5200 (3), 5220 (3), and one of the following three courses: 5221 (3), 5222 (3), and 5223 (3).

Electives: 6 hours

Students must take two elective courses. All courses below may count toward the minor, unless taken as a required course. All these courses are 3 credit hours.

GEOG 2200, 5100, 5201, 5221, 5222, 5223, 5224, 5270, 5275, 5300, 5402, 6220

Geographic Information Science minor program guidelines

Required for graduation No

Credit hours required A minimum of 15 credit hrs. 1000 level courses shall not be counted toward the minimum.

Overview

The 15 semester credit hour undergraduate minor in *Global Public Health* focuses on health issues affecting populations in the US and low-to middle-economic status countries worldwide. Students complete courses that provide content relative to presenting and discussing the type and scope of issues, factors that contribute to existing and emerging issues and applicable public health approaches to address and intervene. The program will augment and enhance many different undergraduate bachelor degree programs and expands learners' knowledge and comprehension of issues affecting humans domestically and abroad.

Competencies

Upon successful completion of the undergraduate minor in *Global Public Health*, students will be better prepared to:

- Compare and contrast examples of major domestic and international public health issues
- Discuss various global approaches/strategies for identification, response and intervention to address and attempt to resolve common public health issues
- Identify political, cultural, behavioral and socio-economic factors related to global public health issues
- Work effectively in international settings
- Adapt to diverse cultures, perceptions and approaches
- Discuss major currents of global change and issues they raise
- Communicate across cultural and linguistic boundaries
- Comprehend the international dimension of one's field of study.

Minor Requirements

The minor in *Global Public Health* requires a minimum of 15 semester credit hours of course work plus one prerequisite course in statistics.

Prerequisite (minimum 3 semester credit hours):

One introductory course in statistics (STAT 1350, 1450, or equivalent) must be taken before or concurrent with the required course in epidemiology.

Required courses (12 credit hours)

PUBHLTH 2010 Introduction to Global Public Health (3) PUBHEPI 2410 Introduction to Epidemiology (3)

Any two of the following three courses
(the other may be used as an elective):

- PUBHEHS 3310 Current Issues in Global Environmental Health (3)
- PUBHBBHP 3510 The Role of Behavior in Public Health (3)
- PUBHHMP 4650 Health Care in America (3)

Electives (minimum of 3 credit hours)

Any letter-graded course in the College of Public Health available for undergraduate credit is acceptable as an elective (i.e., courses graded S/U are not eligible).

Courses from outside the College of Public Health that have a focus on analytic methods or issues related to population health may also be approved as electives. Students or academic units may propose additional courses for inclusion in the minor. These will be reviewed by the Office of Academic Programs and Student Services in the College of Public Health and approved as appropriate. Courses used as electives in the public health minor must not also be part of the student's major.

Global Public Health minor program guidelines

Required for graduation No

Credit hours required A minimum of 15

Transfer credit hours allowed No more than one half of the credit hours required on the minor.

Overlap with the GE Permitted, up to 3 credit hours

Overlap with the major Not allowed

Overlap between minors Each minor completed must contain 12 unique hours

Grades required

- Minimum C- for the minor prerequisite and all completed minor courses.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work taken Pass/Non-Pass cannot count on the minor.

Approval required Students who wish to declare the Global Public Health minor must meet with either Guy Smalley, (gsmalley@cph.osu.edu) or Jennifer Wells, (jwells@cph.osu.edu) or by calling 614-292-8350 for an appointment to declare the minor. Early declaration is encouraged.

Filing the minor program form The minor program form must be filed at least by the time of graduation application is submitted to a college/school advisor.

APPENDIX D
CURRICULUM MAP

LEARNING GOALS

1. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
2. Students demonstrate analytical and quantitative abilities, including mathematical and logical skills, appropriate to their specialization in International Studies.
3. Students understand the diversity of cultures, ideas and practices across the world.
4. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

Office of the Executive Dean

Arts and Sciences
186 University Hall
230 North Oval Mall
Columbus, OH 43210-1319

June 6, 2012

Phone (614) 292-1667
Fax (614) 292-8666

W. Randy Smith
Vice Provost for Academic Affairs
203 Bricker Hall
190 North Oval Mall
CAMPUS

Dear Randy,

I am pleased to submit for your consideration a proposal for a Bachelor of Science program in International Studies. As you know, the existing Bachelor of Arts program is interdisciplinary and remains a consistently popular major among our students. The proposed Bachelor of Science program would expand the interdisciplinary program options for students whose interests range from the humanities and the social sciences to the natural sciences.

This program will provide the same rigorous curricular structure that is offered in the Bachelor of Arts major, but it also incorporates a science-based minor and Bachelor of Science general education requirements. Students will be well-prepared for a variety of possible postgraduate plans, including graduate and professional schools, industry, the military, and government.

The Bachelor of Science degree in International Studies integrates internationalization and interdisciplinarity into students' education as does the existing major, and I support its adoption by the university as a major.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Steinmetz", with a stylized flourish at the end.

Joseph E. Steinmetz, Ph.D.
Executive Dean and Vice Provost
College of Arts and Sciences

APPENDIX F

CONCURRENCE: DEPARTMENT OF GEOGRAPHY

2 The GIS minor was approved by ASCC on June 8, 2012. Appendix C includes the corrected GIS minor program

-----Original Message----- From: becky.mansfield@gmail.com [mailto:becky.mansfield@gmail.com] On Behalf Of Becky Mansfield Sent: Wednesday, June 06, 2012 10:57 AM To: Haddad, Deborah Cc: Sui, Dan Subject: Re: Concurrence?

Deborah,

I see no problems with this major (I'll let Dan chime in if he sees things differently!).

However, I want to be sure that it is clear that as of now there is no GIS major-- we submitted a proposal earlier this term, and it has cleared the college subcommittee. I don't know the timeline for any meetings over summer.

Also, the version of the minor included in this proposal is out of date. Our most current proposal is attached.

Thanks,

Becky

We are happy to have the Business Minor included. Please let me know if you need a more formal letter of concurrence. I have copied our Associate Dean of Undergraduate programs here in case she has anything to add.

There is a typo in the section regarding the General Business Minor (human is misspelled).

Subject: Concurrence for International studies BS propoal

Dear Dean Poon,

This is another request for the College of Business's concurrence for an International Studies curricular initiative. I am about to submit a proposal to establish a Bachelor of Science degree in International Studies. As part of this major, students have to take a minor that has a BS designation and whose content is consistent with the demands of a BS major. Six minors that meet these criteria have been chosen to pilot the new major and one of them is the minor in General Business. Do I have the Business College's permission to include this minor in the proposal for the new degree in International Studies?

I can, of course, send you the complete proposal if you would like to peruse it before making a decision on this request. I look forward to hearing from you.

Sincerely,

Tony Mughan

CONCURRENCE: SCHOOL OF ENVIRONMENT AND NATURAL RESOURCES

From: Wilson, Robyn [wilson.1376@osu.edu]
Sent: Thursday, July 11, 2013 10:15 AM
To: Mughan, Anthony
Cc: Johnston, Renee; Sharp, Jeff
Subject: Concurrence for IS BS Proposal

Hello Tony, below is our response. Let me know if this e-mail and the text below is sufficient for your purposes. The proposal looks great and we are pleased to see Environmental Science included in the minor options.

The Academic Affairs Committee in the School of Environment and Natural Resources reviewed the proposal for the new BS in International Studies. We appreciate the opportunity to review this proposal, and we support the creation of this major because it does provide options that complement the existing BA in International Studies by highlighting science-focused coursework and opportunities.

We do not see this particular major overlapping with any of the current majors in the School. We do see this major as complementary to our program, and a nice way to highlight a minor in Environmental Science as part of an internationally focused program of study. We have several minors in the School that we believe would be very complementary to this major if International Studies would want to expand their science-based minors in the future (namely Society and Environmental Issues and Rural Sociology).

Please let me know of any additional questions you might have regarding our concurrence.

Sincerely,

Robyn Wilson, Academic Affairs Committee Chair

Subject: BS proposal concurrence

Mike,

Let me start by emphasizing that this request is completely separate from any discussions we have had in the past about International Studies' proposed professional masters degree in International Development and Humanitarian Assistance.

International Studies is about to submit a proposal to establish a Bachelor of Science undergraduate degree in International Studies. As part of this major, students have to take a minor that has a BS designation and whose content is consistent with the demands of a BS major. Six minors that meet these criteria have been chosen to pilot the new major and one of them is Global Public Health. Do I have the College of Public Health's permission to include this minor in the proposal for the new degree in International Studies?

I can, of course, send you the complete proposal if you would like to peruse it before making a decision on this request. I look forward to hearing from you.

Best wishes,

Tony

Professor, Political Science & Director, International Studies

PRE-MAJOR 13-14 hours (these courses do not count in the major.)

1. LANGUAGE: Completion of 1103 or equivalent of an approved foreign language with a grade of C- or higher. CHOOSE FROM: Arabic, Chinese, Czech, French, Georgian, German, Hebrew, Hungarian, Italian, Japanese, Korean, Modern Greek, Persian, Polish, Portuguese, Russian, Somali, Spanish, Swahili, or Turkish.
2. History 2550 History of War (3)
3. Psychology 1100 Introduction to Psychology (3)
4. Statistics 1450 or 2450 Introduction to Statistics / Practice or Analysis (4)

Credits	Grade

MAJOR REQUIREMENTS: Complete a minimum of 30 credit hours and 10 courses. Courses used in your major cannot also be used for GE requirements. Courses used in your major cannot also be used in a minor. You must earn a C- or higher in all courses on your major and have a minimum 2.0 cumulative grade point average.

1. COMPLETION OF AN APPROVED MINOR: Choose from: Agribusiness, City and Regional Planning , Environment Science, General Business, Geographic Information Science or Global Public Health. These courses do not count towards the major.

2. REQUIRED FOUNDATIONS: 12 HOURS

- | | |
|----------------------------|--|
| International Studies 3700 | Introduction to Intelligence (3) |
| International Studies 4700 | Terror & Terrorism (3) |
| Political Science 4315 | International Security & Causes of War (3) |
| Psychology 4525 | Psychology of Personal Security (3) |

Credits	Grade

3. ADVANCED FOREIGN LANGUAGE: 3-4 hours

Complete one advanced language course listed below (3). ❖

Arabic 2104, Chinese 2102, Czech 2104, French 2101, Georgian 2104, German 2101, Hebrew 2105, Hungarian 2104, Italian 2102, Japanese 2102, Korean 2102, Modern Greek 4001, Persian 2104, Polish 2104, Portuguese 3401 or 3402 or 3403 or 5501, Quechua 5504, Russian 2104, Somali 2201, Spanish 2202, Swahili 2201, Turkish 2101
 Note: International Students should consult with the IS department about this requirement.

❖ Students completing a major or minor in a foreign language will follow the instructions below for completing the advanced language requirement above.

❖ **Students completing a MINOR** in one of the above languages will take an additional course from the elective section in place of the language course. Minor courses cannot be used in a major.
 Substitute Course (choose from elective list):

Credits	Grade

❖ **Students who complete a MAJOR** in one of the above languages are permitted to use the advanced foreign language course in both majors.

4. CRITICAL PERSPECTIVES: 12 HOURS

- | | |
|----------------------------|---|
| AEDECON or INTSTDS 4532 | Food Security & Globalization (3) |
| Earth Sciences 3411 | Water Security in the 21 st Century (3) |
| Economics 4547 | Economics of War (3) |
| Geography 3300 | Transportation Security (3) |
| History 3540 | Modern Intelligence History (3) |
| History 3552 | War in World History, 1900-Present (3) |
| International Studies 3701 | Introduction to Homeland Security (3) |
| International Studies 4251 | Organized Crime & Corruption in Contemporary Europe (3) |
| INTSTDS or PLNTH PATH 4550 | Bioterrorism: An Overview (3) |

Credits	Grade

Continued on back.

3. CRITICAL PERSPECTIVES (choose 4): 12 hours

International Studies 4400	Data Analysis for Research (3)
International Studies 4701	Development & Control of Weapons of Mass Destruction (3)
INTSDS or PUBAFRS 5700	Rebuilding Weak or Failed States (3)

Sociology 3410	Criminology (3)
Sociology 5618	Sociology of Police & Policing (3)

Credits	Grade

TOTAL HOURS (minimum 30 hours and 10 courses):

DOUBLE MAJOR in International Studies. Students can complete a double major in International Studies, however, you must combine an area studies major (***African Studies, East Asian Studies, Latin American Studies, Middle East Studies, Slavic & East European Studies, or West European Studies***) with an international issues major (***Development Studies, International Relations & Diplomacy, Security & Intelligence, or World Economy & Business***). Those with a double major in International Studies must complete a second advanced foreign language class. These language classes must be in an approved language for the Area Studies major. One approved minor from Section 1 will complete the minor requirement for a student pursuing a double major in International Studies.
