Subject: University Honors 2596H

Dear Anne:

On Monday, Oct 15, the ASCC Natural and Mathematical Sciences (NMS) Panel reviewed University Honors 2596H for Cross-Disciplinary Seminar GE status. The Panel members did express some concern that the interdisciplinarity of the course as currently conceived will depend on which students (which majors) will enroll in the course. This could potentially be a problem. However, the Panel agreed that the course fulfills the goals and expected learning outcomes of the GE Cross-Disciplinary Seminar category and approved the course for this GE status.

University Honors 2596H will next move on to the full ASCC for a two-week comment period.

Please let me or Professor Von Frese, Chair of the ASCC NMS Panel, know if you have any questions about the course.

All the best,
Bernadette
