<u>**Course Description:**</u>
Develop self-monitoring skills as a way to enhance skill learning, especially in the context of intensive language study. After the initial meeting, in which the concept of self-monitoring is introduced students will be guided to upload study log entries onto course Carmen site, for discussion and instructor feedback. Requirements:
There are three requirements for this course.
1. Attendance
> You are required to attend the first meeting as well as any additional group meetings scheduled.
> Attendance in all group meetings required of everybody, regardless of the number of credits taken.
2. Self-monitoring Reports
> Students are required to submit reports in which you reflect on your learning accomplishments and strategies for the seven-day period preceding the submission date. Each report should consist of their daily log entries about their accomplishments and activities related to their language learning, and a short weekly summary for the week. The daily log may include such information as the location of their study, the length of time spent on a task, areas that required special attention. The reports are to be written in English.
> Number of reports required depends on the number of credits you are registered for as follows.
>> 3 credits: 7 reports, submitted every week.
>> 2 credits: 4 reports, submitted at the end of weeks 1, 3, 5, and 7.
>> 1 credits: 2 reports, submitted at the end of weeks 1 and 6.
3. Participation in on-line discussions
> On-line discussions will be conducted on weekly topics. Each student is required to post a minimum of one comment each week in the discussion box of Carmen.

Grading:
Grades will be determined as follows:
Attendance in group discussion session(s)   10%
Self-monitoring report posting   60%
> These reports not graded for their contents, but on their prompt submission. They are to be posted by Friday of by 7 p.m. Late posting will result in the loss of 5% per day of grade points for that report for up to 3 days, after which no points will be given for that report.
On-line discussion posting   30%
> Comments should be constructive. Any comments that are clearly abusive in nature or are direct personal attacks on any member of the discussion group will result in the immediate dismissal from the discussion forum with the associated loss of points for the course grade.

The standard OSU scheme will be used to determine the course grade.
