Garrett --

I'm pleased to give concurrence on behalf of the Psychology Department. Good luck with the course.

Hello Tom and Alisa,

The Arts and Humanities curriculum panel is requesting that the attached course seek concurrence from Psychology. The course is the result of an Engagement Impact Grant and involves the Royal Shakespeare Company, the Nisonger Center, and others. One of the P.I.s was Marc Tassé so I'm assuming that the course would not pose a problem. I should note too that this course will be taught 2 times (this summer and next) and draw approximately 12 students for each offering almost exclusively from Theatre.

I've attached the syllabus. More about the collaboration can be found here:
