---

Dear Mark and Neil,

On behalf of the ASC Curriculum Committee (ASCC), I want to thank you for attending our meeting on April 19 to discuss the Environment, Economy, Development, and Sustainability Minor.

I am happy to report that the minor was unanimously approved by the ASCC.

Here are a few recommendations that the Committee has:

- The unit could explore internships as an option for electives.
- ENR/AEDE 2500 could serve as a prerequisite course instead of requiring additional prerequisites like Econ 2001.
- An alternate suggestion: Since students will have to take Econ 2001 in order to take other required courses, it may be beneficial to mention that this is a GE course so that students know when they register for GE courses that this is one that they will want to take.

Should you have any questions about this feedback, feel free to contact Professor Mitch Master (Chair of ASCC; cc'd on this e-mail), or me.

The minor will now be advanced to the Office of Academic Affairs.

Best regards,  
Bernadette
