Dear Becky,

Yesterday, the NMS Panel of the ASC Curriculum Committee reviewed the additional information pertaining to Geography 2200.

I am happy to report that the request was unanimously approved.

Provided the course is subsequently approved all the way through the Office of the University Registrar, Geography 2200 will have GE Data Analysis status in future semesters.

Please know that the GE assessment plan will need to be implemented each time Geography 2200 is offered and GE data gathered. After the second offering of the course, the Department of Geography will be asked to submit an initial report summarizing GE assessment results of those first two offerings (following the format of sections I and II of the Assessment Report Requirement in Appendix 6 of the ASC Curriculum and Assessment Operations Manual [p. 75] https://asccas.osu.edu/sites/asccas.osu.edu/files/ASC_CurrAssess_Operations_Manual.pdf). Our program assistant Danielle Hogle (hogle.12) can help the Department of Geography with any aspect of the GE assessment requirement. She will also make sure to contact the Department before the course is offered and provide any assistance that the faculty member(s) may need. Could you please communicate this information to the faculty member(s) who will be teaching the course?

Geography 2200 will next advance to the full ASC Curriculum Committee for the standard 2-weeks comments period.

Should you have any questions about this feedback, please do not hesitate to contact Harald Vaessin (Chair of the NMS Panel; cc'd on this e-mail), or me.

Best,
Bernadette
