Dr. Bruno,

At its meeting of Friday, September 20, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a proposal for a new course--Mathematics 4350 "Quantitative Neuroscience." The course proposal has your concurrence from the neuroscience major attached to it: <http://crmtview.asc.ohio-state.edu/currofc/docs/2943/Mathematics%204350%20New%20Course.pdf>

The faculty Panel unanimously approved the new course with one contingency: they would like to know whether your concurrence also covers the College of Medicine—Dept of Neuroscience (i.e., have they been informed of the course proposal and do they agree with it?) or whether a separate concurrence needs to be obtained from that unit in COM.

Thank you for letting us know.

Best regards,
Bernadette Vankeerbergen
