10 October 2013

Dr. John Bruno, Professor
Director, Neuroscience Undergraduate Program
Department of Psychology
The Ohio State University
Columbus, OH 43210

Dear John:

I am writing to provide concurrence for Dr. Terman's Quantitative Neuroscience course. It does not replicate any courses offered by the Department of Neuroscience at either the graduate or undergraduate level, and is urgently needed. Dr. Terman has my strongest support for this course—we plan to suggest his course to our graduate students. Please contact me for any additional information.

Sincerely,

Randy J. Nelson,
Professor and Chair
