Credit Hour Explanation

Program credit hour requ	irements	A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours completion of progra				12	
Required credit hours offered by the unit	Minimum			12	
	Maximum			12	
Required credit hours offered outside of the unit	Minimum			0	
	Maximum			0	
Required prerequisite credit hours not included above	Minimum			0	
	Maximum			0	

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? No

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No

Date: 21 November 2012

To: Randy Smith Vice Provost, Office of Academic Affairs From: Ed McCault (CP)

Secretaty, Collège of Engineering Committee on Academy Affairs (CCAA) Subject: Proposal for an Undergraduate Minor in Landscape Architecture Studies The College of Engineering has reviewed the Knowlton School of Architecture's proposal to create an Undergraduate Minor in Landscape Architectural Studies and believes that it is a minor that should be approved. The minor meets all of the college's and school's requirements and should be one that is well received by our students. If you have any questions concerning this proposal please let me know.

Austin E. Knowlton School of Architecture THE OHIO STATE UNIVERSITY

Architecture Landscape Architecture City & Regional Planning

Date: December 1, 2011

To: Randy Smith, Vice Provost for Academic Programs

From: Michael Cadwell Interim Director, Knowlton School of Architecture

Re: Proposal of Undergraduate Minor in Landscape Architecture Studies

Attached is a proposal from the Knowlton School of Architecture requesting approval for an undergraduate minor. The Landscape Architecture Curriculum Committee met through the 2010-2011 academic year to develop a model curriculum. It was discussed at faculty meetings and unanimously approved by the faculty. The proposal has my full support.

If you have any questions about this proposal, please contact me at cadwell.1@osu.edu or Professor Robert Livesey, Landscape Architecture Section Head, at livesey.1@osu.edu.

Sincerely,

Michael Cadwell Professor and Interim Director

Proposal for Undergraduate Minor in Landscape Architectural Studies

Sponsoring Unit: Offered by the Knowlton School of Architecture, administered by the Landscape Architecture Section

Contact person(s): Landscape Architecture Section Head, Landscape Architecture Undergraduate Program Chair

Development of the Minor and Potential Audiences

Landscape Architecture is the study, design and construction of our collective built and altered environment. As such, Landscape Architecture has broad relevance to a range of core twenty-first century issues: environmental degradation, sustainability, rapid urbanization, transportation, public health, food systems, food security and renewable energy to name a few. Imbedded within the study, design and construction of the environment are the critical historical and contemporary movements and disciplinary tools through which Landscape Architects view, record, analyze, interpret, and construct the environment around us. As a central discipline that both impacts and reacts to the larger global discourse on these issues a minor program focusing on Landscape Literacy should be relevant to a broad University audience. During the Winter and Spring of 2010, the Landscape Architecture faculty met, discussed and approved an undergraduate minor in Landscape Architecture. While we are certain that the minor has the potential to appeal to students across campus and in a variety of disciplines, there are three distinct audiences which we believe will be most interested in pursuing the proposed minor.

Group 1: Pre-major students in Landscape Architecture that are not accepted into the major

- These students have demonstrated a discrete interest in the discipline, have invested themselves in the coursework and often pursue related majors. A minor in Landscape Architecture will allow those students to encapsulate their knowledge with a comprehensive minor in the subject.

Group 2: Students pursuing other majors within the Knowlton School of Architecture

- A minor in Landscape Architecture will allow students pursing Architecture and City and Regional Planning to support their professional interests by expanding their knowledge of another distinct profession which plans and manages the built environment.

Group 3: Students in related majors across campus

The Landscape Architecture program has received significant interest in an undergraduate minor from students in related majors across campus such as Landscape Horticulture, Art and Environmental Engineering among others. Based on this curricular experience, it is anticipated that some of these students may choose to apply to the first year of our three-year graduate program which attracts students from diverse disciplines.

Landscape Literacy:

Every person's actions shape the environment, from the foods and clothes that we purchase to how we choose to get to work in the morning. Required courses within the proposed Minor in Landscape Architectural Studies focus on building foundational awareness of and appreciation for the ways in which humans have fundamentally shaped and continue to shape the environment. Courses focus on the ideas, logics and tools behind, built artifacts as a means to open greater awareness of and conversation around our collective environment.

Curriculum in Detail

The undergraduate minor in Landscape Architecture has been designed to be inviting to either design based or non- design based majors across the university. Six required credit hours within a suite of history and theory based courses is intended to provide a broad overview of the discipline, and to engender an appreciation for and ability to read fundamental works and ideas. Six additional credit hours of elective courses are intended to allow students desiring the minor to pursue deeper coursework in history and theory or to branch into the more applied aspects of the discipline through workshops and study tours.

General Learning Objectives

The key learning goal of the minor is for students to demonstrate a basic understanding of the built and altered environment within the context of the practice of landscape architecture. This will be achieved by introducing students to a relevant body of knowledge in the field of landscape architecture. The goals of the Minor in Landscape Architecture will be met through the development of the following abilities:

- 1) To recognize the pervasiveness of the built and altered environment in everyday life.
- 2) To understand basic landscape architectural/built environment concepts and terms, such as systems, urbanism, and sustainability.
- 3) To appreciate the ways in which our landscape/environment shapes human history and people shape the landscape/environment.
- 4) To appreciate the development and use of landscape architectural technologies and design ecologies.
- 5) To understand the importance of landscape architecture in working toward a more sustainable environment.
- 6) The ability to ask pertinent questions of self and others regarding the way we impact our environment.

Curriculum in Detail

Proposed Requirements:

Students are required to complete a minimum of 12 credit hours to fulfill the minor requirements. At least 6 credit hours must be taken at the 3000-level or above.

Landscape Architecture History and Theory courses

(Students must complete a minimum of 6 credit hours within this set of courses):

LArch 2300: Outlines of the Built Environment, 3 LArch 2367: Making and Meaning in the American Landscape, 3 LArch 2600: Outlines of Landscape Architecture: Visual Literacy in the Built Environment, 3 LArch 5610: History and Theory of Gardens, 3 LArch 5620: History and Theory of Parks, 3 LArch 5630: History and Theory of Urbanism, 3

Landscape Architecture Electives:

(Students may choose up to 6 additional credit hours from within this set of courses. Prerequisites must be met where necessary):

LArch 2000: Introduction to Landscape Architecture, 1 LArch 2310: Introduction to Design, 4 LArch 2410: Landscape Architecture Workshop I, 3 LArch 2420: Landscape Architecture Workshop II, 3 LArch 2780: Landscape Architecture Topics Seminar, 3 LArch 3189: Ecological Field Exploration, 1-4 LArch 3194: Group Studies in Landscape Architecture, 1-15 LArch 3430: Landscape Architecture Workshop III, 3 LArch 3440: Landscape Architecture Workshop IV, 3 LArch 3597: Environmental Stewardship and You, 3 LArch 4798: International Studies in Landscape Architecture, 6 LArch 5960: Design Competition, 1-6

Course Descriptions

Larch 2000: Introduction to Landscape Architecture, 1 Introduction to the profession of Landscape Architecture and the breadth of Landscape Architectural projects and practice. Prerequisite: None.

LArch 2300/E, Outlines of the Built Environment, 3 Introduction to the disciplines of architecture and landscape architecture and planning with an emphasis on the physical artifact and its formal and cultural context. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 2310: Introduction to Design, 4 Introduction to the design of the physical environment through the exploration of form, space, and order using drawing and modeling techniques. Prerequisite: None.

LArch 2367/E: Making and Meaning in the American Landscape, 3 Overview and interpretation of influential figures, policies, programs, cultural forces, and environmental factors that have shaped the American landscape since the Revolutionary War. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 2410: Landscape Architecture Workshop I, 3 Introduction to fundamental techniques of site inventory and analysis, with a focus on representation and building visual arguments. Prerequisite: None.

LArch 2420: Landscape Architecture Workshop II, 3 Introduction to techniques and technologies of landscape architectural implementation at the site scale, with a focus on schematic level documentation, materials and construction. Prerequisite: LArch 2410.

LArch 2600/E: Outlines of Landscape Architecture: Visual Literacy in the Built Environment, 3 Overview of patterns and processes of human design on land in relation to environmental, economic and socio-cultural forces, with an emphasis on interpretation of visual landscape change. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 2780: Landscape Architecture Topics Seminar,3 Discussion-based undergraduate course focusing on topics in contemporary landscape practice and research. Prerequisite: None

LArch 3189: Ecological Field Exploration, 1-4 Observation and field investigation of the diverse landscape ecologies of Ohio and the region. Prerequisite: None, Repeatable to a maximum of 8 credit hours or 2 completions.

LArch 3194: Group Studies in Landscape Architecture, 1-15 Group-based study of landscape architecture topics within the frame of an instructor guided course. Prerequisite: Permission of instructor, Repeatable to a maximum of 15 credit hours or 5 completions.

LArch 3430: Landscape Architecture Workshop III, 3 Advanced techniques and technologies of landscape analysis and data visualization, with an emphasis on GIS. Prerequisite: LArch 2420. LArch 3440: Landscape Architecture Workshop IV, 3

Advanced techniques and technologies of landscape architectural implementation, with a focus on site infrastructure. Prerequisite: 3430.

LArch 3597: Environmental Stewardship and You, 3

Perspectives on environmental stewardship in the U.S., with emphasis on effective individual and group response to ecologic, economic, ethical, political and sociocultural issues impacting the environment. Prerequisite: Jr or Sr standing. (Honors standing required for Embedded Honors offering.)

LArch 4798/E: International Studies in Landscape Architecture, 6

International program offering opportunity for guided travel, international projects, student exchange, and immersion experiences. Prerequisite: Permission of instructor. (Honors standing required for Embedded Honors offering.)

LArch 5610/E: History and Theory of Gardens, 3

Contemporary history and theory of landscape architecture practice and criticism, with an emphasis on evaluating conceptual, formal and performative aspects of designed landscapes. Focus on gardens. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 5620/E: History and Theory of Parks, 3

Contemporary history and theory of landscape architecture practice and criticism, with an emphasis on evaluating conceptual, formal and performative aspects of designed landscapes. Focus on parks. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 5630/E: History and Theory of Urbanism, 3

Contemporary history and theory of landscape architecture practice and criticism, with an emphasis on evaluating conceptual, formal and performative aspects of designed landscapes. Focus on Urbanism. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

LArch 5798: Study Tour in Landscape Architecture, 6

Program offering opportunity for guided travel, field study and on-site investigation in the United States. Prerequisite: Permission of instructor.

LArch 5960: Design Competition, 1-6

Learn how to work in interdisciplinary teams to develop design proposals to solve problems in the natural or built environment. Prerequisite: Jr, Sr, or Grad standing. Repeatable to a maximum of 9 credit hours or 3 completions.

Landscape Architectural Studies Minor Program Guidelines

- 1. Required for graduation: No
- 2. Credit hours required: A minimum of 12; 1000 level courses shall count toward the 12 CH minimum.
- 3. Transfer credit hours allowed: No
- 4. Overlap with the GE: permitted unless specifically disallowed by home unit.
- 5. The minor must be in a different subject than the major.

6. Overlap with the major not allowed.

7. Grades required: Minimum C- for a course to count towards the minor; Minimum 2.00 cumulative point-hour ratio required for the minor; Course work graded Pass/Non-Pass cannot count towards the minor.

8. Students wishing to have variations to the program considered must submit them in writing to the Chair of the Knowlton School of Architecture Curriculum Committee who will then approve or reject them.

Actions Required of Students

Students pursing the Minor in Landscape Architectural Studies are required to complete a Minor Program Form. This form can be completed at any time during the pursuit of the minor but it is highly recommended that students meet with a Knowlton School of Architecture advisor prior to entering into the minor. The Minor Program Form must be completed and signed by an advisor in the Knowlton School of Architecture and by the student's advisor in their Major Program and submitted prior to or along with the graduation application in order for the student to be awarded the minor. Copies of this form will be retained by both the Architecture Program and the student's Major Program. Students should consult their Major Program for any additional constraints.

Administration and Advising

The minor will be administratively supported by the Landscape Architecture Section. The Curriculum Committee will be responsible for on-going development of the minor. This committee will report to the Architecture Section Head.

Estimates of Student Interest and Needed Instructional Resources

Although difficult to anticipate, demand for the minor is initially projected at 5 to 10 students per year. This would not require any additional courses or teaching resources. The core courses are offered on a regular basis and the addition of students pursing minors is expected to have minimal impact on class sizes. Should interest increase beyond projections, it is anticipated that the fiscal resources generated will be adequate to cover the additional expenses.

Student Learning Outcome Assessment Plan

The Minors Oversight Committee will be charged with assuring the assessment of student learning outcomes. The Landscape Architecture section will administer a minor completion survey. The survey will explore student perceptions of 1) the attainment of the learning goals indicated for the minor, and 2) structure, availability, and appropriateness of courses in the minor. This data, along with enrollment data, will be reviewed annually by the oversight committee.

Implementation Date

The minor is proposed for implementation in Summer of 2013.

Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

Course number is changing from 1210 to 2300; exclusion updated to reflect new number; application for GE status.

What is the rationale for the proposed change(s)?

Upon retrospect, the faculty have determined that the course is deserving of a 2000 level number based on its academic rigor. The section leadership believes

the course can benefit students across the University as a GE.

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)? None.

Is approval of the requrest contingent upon the approval of other course or curricular program request? No

Is this a request to withdraw the course? No

List the number and title of current course

Semester equivalent of a quarter course (e.g., a 5 credit hour course under quarters which becomes a 3 credit hour course under semesters)

being converted

LArch 367: The Making and Meaning of the American Landscape.

Requirement/Elective Designation

Required for this unit's degrees, majors, and/or minors
General Education course:
Level 2 (2367); Culture and Ideas

The course is an elective (for this or other units) or is a service course for other units

Course Details

Quarters to Semesters

Course goals or learning objectives/outcomes

• To enable students to interpret the American landscape and its environmental history as a product of ongoing developmental processes.

• To refine students' ability to think critically and express arguments effectively in oral and written form, including formation of a personal environmental ethic.

• To provide Honors students with research and advanced investigation into course topics.

Content Topic List

- The American landscape as a living artifact of cultural and environmental forces, public policies, and programs
- Presentation of factual and anecdotal perspectives on the American environment
- Development of writing skills with a focus on how to define and structure a well supported argument

Attachments

Comments

- Reformatted prerequisite. (by Kerns, Alexander J on 02/13/2012 04:21 PM)
- Please remove cross-listing with ENR 2367. Under semesters, ENR will offer a completely different 2367

("Communicating Environmental and Natural Resources Information"). (by Vankeerbergen, Bernadette Chantal on 02/07/2012 10:33 AM)

Comments	• Melissa:			
	I have two additional courses that require revision. The first is LARCH 3440 – the title should read "Landscape			
	Architecture Workshop IV: Advanced Landscape Technologies" rather than "Landscape Architecture Workshop IV:			
	Landscape Technologies".			
	The second is to LARCH 4410 – the credit hours should be variable from $1 - 4$ rather than $1 - 3$.			
	Please let me know whether or not these revisions can be made on your end or if I should expect them to return to			
	my queue. Thanks in advance for your help – I'm sure it must be a very busy time for you!			
	Thank you!			
	Thank you! Holly Griffin

General Education course:

Quarters to Semesters

Cross-Disciplinary Seminar (597 successors and new)

The course is an elective (for this or other units) or is a service course for other units

Course Details

Course goals or learning objectives/outcomes

- To demonstrate an understanding of global sustainability through individual and group activities that draw upon multiple disciplines and through their interactions with students from different majors.
- To understand the benefits and limitations of different disciplinary perspectives toward sustainability.

• To synthesize and apply knowledge from diverse disciplines to the topic of sustainability.

• To understand the benefits of synthesizing multiple disciplinary perspectives when attempting to establish a sustainable project.

Content Topic List

- Global environmental challenges
- Perspectives on sustainability
- Project and project proposal strategies
- Problem solving strategies

Course Number/Catalog	4798
Course Title	International Studies in Landscape Architecture
Transcript Abbreviation	Internatl LandArch
Course Description	International program offering opportunity for guided travel, international projects, student exchange, and immersion experiences.
Semester Credit Hours/Units	Fixed: 6

Offering Information

Length Of Course	14 Week, 7 Week, 4 Week (May Session), 12 Week (May + Summer)
Flexibly Scheduled Course	Never
Does any section of this course have a distance education component?	Νο
Grading Basis	Letter Grade
Repeatable	Yes
Allow Multiple Enrollments in Term	No
Max Credit Hours/Units Allowed	12
Max Completions Allowed	2
Course Components	Independent Study
Grade Roster Component	Independent Study
Credit Available by Exam	No
Admission Condition Course	No
Off Campus	Never
Campus of Offering	Columbus

Prerequisites and Exclusions

 Prerequisites/Corequisites
 Prereq: Permission of instructor.

 Exclusions
 Prereq: Permission of instructor.

Quarters to Semesters

List the number and title of current course being converted

Semester equivalent of a quarter course (e.g., a 5 credit hour course under quarters which becomes a 3 credit hour course under semesters) LArch 698.02: Study Tour: Foreign.

Requirement/Elective Designation

The course is an elective (for this or other units) or is a service course for other units

Course Details

Course goals or learning objectives/outcomes	• Introduce opportunities for international learning through observation, documentation and design experience
objectives/outcomes	Create immersion experiences, establish dialogs and introduce diverse cultural perspectives
	• Exchange ideas and/or practices with local academic institutions, professional groups, community organizations

Content Topic List

• Topics selected by instructor in relation to international study and exchange goals

Quarters to Semesters

5610 - Page 1

List the current courses by number and title that are to be subsumed into proposed course

Modified or re-envisioned course that includes substantial parts of the content and learning goals of one or more quarter courses LArch 603: Landscape Architecture Since 1850: Questions of Nature and Culture; LArch 760: Evaluation and Criticism in Landscape Architecture.

Requirement/Elective Designation

The course is an elective (for this or other units) or is a service course for other units

Course Details

Course goals or learning objectives/outcomes

- Establish familiarity with the practical and theoretical paradigms of 19th-21st century built works of landscape architecture
 - Gain exposure to formative voices in landscape architectural theory, history and criticism
 - Develop skills in evaluation and criticism of built works

Content Topic List

- Modernism, post modernism, environmentalism and landscape urbanism in landscape architecture practice and theory, including overview of influential works and principles of preceding periods
- Built works of 19th-21st c. landscape architecture and urbanism, with particular focus on spatial, organizational, contextual, material and performative characteristics
- Written, verbal and graphic communication of project criticism
- Specific topics as selected by instructor relative to coordination of LARCH 5610, 5620, 5630

New course

Give a rationale statement explaining the purpose of the new course

In the past students across the KSA have participated in design competitions traditionally offered under a group studies course number. Given the annual nature of the School's participation it was logical to create an independent course number.

Sought concurrence from the following Fiscal Units or College

Requirement/Elective Designation

The course is an elective (for this or other units) or is a service course for other units

Course Details

Course goals or learning	• Gain skills related to working in an interdisciplinary team and understanding how each discipline contributes
objectives/outcomes	 Communicate graphically through poster design
	• The design arts (architecture, landscape architecture, art, urban design) including knowledge about the relationship
	between the design of the built environment and its functional, aesthetic and social precedents and consequences
	• Use problem solving skills to select, diagnose and solve relevant aspects of a complex design problem including
	attention to the needs and interests of diverse stakeholders and the guidance provided by conceptual and empirical
	expertise
	 Use written, oral and graphic skills to compose clear, accurate and compelling text, images and maps in documents and oral presentations
	• Collaborate w/ peers in joint learning activities organized to produce a product for a relevant professional clientele, to
	mediate disagreements, to interpret contested purposes, and to negotiate b/n diverse and competing interests
Content Topic List	 Variable based on theme of course. Examples could be urban design competition for urban neighborhood, sustainable waterfront plan, or others

Jacob Ross Boswell Assistant Professor + Undergraduate Studies Chair Landscape Architecture Section Office: KN 271 Austin E. Knowlton School of Architecture The Ohio State University

Dear Professor Boswell,

Thank you for the information on your proposed undergraduate minor in Landscape Architecture Studies. The School of Environment and Natural Resources supports the proposed minor. We anticipate that the proposed Landscape Architecture Studies Minor would be very attractive to students specializing in Parks and Recreation within our Natural Resources Management Major.

We do have a couple concerns we'd like to bring to your attention. In particular the combined required and recommended credit hour requirements of this minor and the potentially demanding time requirements of some of the LARCH courses.

We note that the 12 credit hour minimum to fulfill the minor is probably more like 19 credit hours as LARCH 1210 (3) and 1410 (4) are <u>strongly encouraged</u> but can't count toward the 12 credit hour minimum. Its unclear how disadvantaged students in the minor would be should they be unable to take LARCH 1210 and 1410. We have not formally examined this, but I am not sure any of our majors has sufficient flexibility to allow for 19 additional credits for the minor to be a realistic option.

In addition, based on previous experience with our students we are aware that LARCH classes often times have studio components that are highly demanding and time intensive. The high graphic and visual standards of LARCH might also be a challenge for some of our students in the design courses.

I bring these matters to your attention simply to note that we see this minor as potentially beneficial to some of our students to develop an appreciation for and understanding of LARCH processes and procedures, but we are worried that practically speaking the minor may be too demanding for us to see substantial demand from our majors. That being said, we do believe that some of the individual courses will be quite attractive to some of our students independent of the minor and we hope your development of this minor generates greater awareness of these courses as options for rounding out some of our students course of study.

Sincerely,

and I Hendrick

Ron Hendrick, Director

Subject:	FW: SENR - LARCH Minor Proposal Letter of support
Attachments:	LARCH Minor .doc

Hi Holly,

So I finally got a, sort of letter of support from ENR. Better than nothing. I'm going to try to work with them in order to address some of their concerns.

Best,

Jake

Good afternoon,

Attached is the letter of support that you requested from the SENR - I apologize for the delay in getting this to you as it was an oversight on my part.

Thank you!

Mary
