Chris,
I've attached my concurrence form, but my e-signature was not able to upload. I can print a hard copy and sign before the 29th if this will not suffice.

Dear Prof. Ewoldsen,

See below for concurrence from the School of Earth Sciences (SES) for Communications 3340. SES did ask to be kept informed as to when this course is approved so that their advisors can inform students accordingly.

Initially, I had forwarded the message to Evolution, Ecology and Organismal Biology as well, but I have not heard from Prof. Roman Lanno yet.

Regards,

Christopher

Hi Christopher,

Earth Sciences supports the development and approval of Communications 3340. This new course does not overlap with any content presently taught in SES, and the new course may be attractive to our B.A. majors and our B.S. majors in the Earth Systems Science subprogram.

I would ask to be kept informed when this course is approved, so that SES advisors can be made aware of this course.

Best,
Larry Krissek
Associate Director for Administration, SES

Dear Larry and Roman,

Please see below for a request for concurrence on a new course submission by the School of Communication. I thought that your two units (School of Earth Sciences and the Department of Evolution, Ecology and Organismal Biology) might wish to weigh in for the concurrence. Please let me know if you concur with this request.

Thanks,

Christopher

Subject: Seeking concurrence

Dean March,

The School of Communication is proposing a new course entitled Principles of Environmental Campaigns (Comm 3340). The ASC Curriculum Committee has requested that we seek concurrence from your department prior to their approval of the course. The concurrence form and the syllabus for the course are attached. If you are not the appropriate person to contact for this request, please let me know ASAP. If you are the correct person, could you please make a determination on concurrence by October 29 (2 weeks).

Thank you
