Bernadette and David,

My apologies for not getting to this sooner...

The CLSE has no issues with regards to curriculum overlap between the proposed Comm 3340 (Principles of Environmental Campaigns) and any Intro Bio course. We support the proposal.

Sincerely,

Matt

Subject: Concurrence Request

Dr. Misicka

The School of Communication is proposing a new course entitled Principles of Environmental Campaigns (Comm 3340). The ASC Curriculum Committee has requested that we seek concurrence from your department prior to their approval of the course. The concurrence form and the syllabus for the course are attached. If you are not the appropriate person to contact for this request, please let me know ASAP. If you are the correct person, could you please make a determination on concurrence by October 29 (2 weeks).

Thank you for your time.

David R. Ewoldsen
Professor
Director of Undergraduate Studies
School of Communication

But for Ohio State and you ...
we wouldn't be transforming someone's life everyday,
in real everyday ways.
