Date: Wednesday, December 04, 2013 9:00:22 AM

Bill,

On Monday, December 2, the NMS Panel reviewed 4 new course requests for Math 1135, 1136, 2137, and 2138.

Math 1135 and 1136 were approved with one contingency, namely: Request to specify contact hours on syllabi. Syllabi do not make clear why 5 credit hrs are needed.

Math 2137 and 2138 were unanimously approved.

Furthermore, the Panel had the following recommendation regarding 1136 and 2137: The outlines in the syllabi for 1136 and 2137 state that there will be “roughly 13 weeks of content, leaving 1 week for exams.” The Panel thought this was a bit confusing. The syllabi for 1135 and 2138 state that there will be “roughly 14 weeks total; midterms to be inserted as appropriate.” The latter phrasing seems more appropriate.

I will return 1135 and 1136 via curriculum.osu.edu in a minute to enable the Department to make the necessary changes.

Should you have any questions about this feedback, please do not hesitate to contact Harald Vaessin, Chair of the ASCC NMS Panel (cc'd on this e-mail), or me.

My best,
Bernadette
