Hi Larry,

On Tuesday, January 21, the ASC NMS Panel reviewed a course change request for Earth Sciences 5751.

The Panel unanimously approved the course change. The Panel did have a discussion about whether students who have already taken the course under the old format might be interested in taking the new version. The Department might like to think about how to address such a situation.

The course change will next be presented at the ASCC meeting for the standard 2-weeks comments period.

If you have any questions, please feel free to talk to Harald or me.

Best,
Bernadette
