Hi Peter:

Thanks for the note. I was getting ready to write as your e-mail popped. Our Division will be happy to concur with the distance learning version with the understanding that we can teach our version (PUBHBIO7225) the traditional way (in Au 2015) when we offer it here. The plan is to convert that course to distance learning later. Please let me know if I need to sign any form or this will serve as our concurrence.

.....Raj

Dear Raj,

Subject to your correction, any chance of receiving concurrence for our distance learning version of 6510? (Sampling)

Regards,  
Peter
