

Arts and Sciences Distance Education Online Course Component Technical Review Checklist

Course: Statistics 6510

Instructor: Dr. Elly Kaizer

Summary: Autumn 2014 Course

COURSE TECHNOLOGY

Standard	Yes	Yes with Revisions	No	Feedback/Recommendations
1. The tools and media support the course learning objectives.				Asynchronous Online video lectures will be delivered through links within Carmen. Weekly pre-scheduled synchronous office hours will be held through Carmen Connect.
2. Course tools and media support student engagement and guide the student to become an active learner.				Students will engage with each other and the course materials on a weekly basis in the following ways: Weekly 1 hour asynchronous interactive online activities and discussions within Carmen Synchronous online office hours or by appointment Email communications with the instructor Week 6 semester project assignment
3. Navigation throughout the online components of the course is logical, consistent, and efficient.				Course materials will be organized within Carmen to match the week to week schedule outlined in the course syllabus. There will be an expanded version of the syllabus within Carmen. Detailed weekly activities will be noted in Carmen.
4. Students can readily access the technologies required in the course.				Both Carmen and Carmen Connect will be used to teach this course. Students are not required to have any account outside of their OSU account.
5. The course technologies are current.				Yes, Carmen and Carmen Connect are both current OSU technologies.

6. Funding and support for the course technologies are sustainable for future sections of the course.				The lectures will be captioned if requested as part of an authorized disability accommodation. YouTube was also discussed as a possible option for free captioning of the video lectures, but the OSU's office of Disability Services is also an option. The former option would require the instructor to edit the captions to ensure accuracy.
7. The course technologies, tools and media will be evaluated and updated as underlying technologies, platforms and approaches change.				Carmen will be used to teach this course. Recommend that the students for the course be surveyed on the technology used in the course and that the technology be modified based on student feedback each time the course is taught. What did and did not work for the students.
8. The course instructions articulate or link to a clear description of the technical support offered and how to access it.				The faculty member should add an overview and instructions for students to access Carmen and Carmen Connect technical support. (8-Help) https://carmen-services.it.ohio-state.edu/carmen-help/students/ https://ocio.osu.edu/elearning/services/toolscarmencnnect/participation/
9. Course instructions articulate or link to the institution's accessibility policies and services.				The faculty member should include a link to OSU accessibility page on the syllabus. http://ada.osu.edu/resources/Links.htm
10. Course instructions articulate or link to an explanation of how the institution's academic support services and resources can help students succeed in the course and how students can access the services.				The faculty member should add to the syllabus an overview and contact information for the student academic services offered on the OSU main campus. http://artsandsciences.osu.edu/current-students/university-resources
11. Course instructions articulate or link to an explanation of how the institution's student support services can help students succeed and how students can access these services.				The faculty member should add to the syllabus an overview and contact information for student services offered on the OSU main campus. http://ssc.osu.edu
