Date: Wednesday, October 22, 2014 4:20:00 PM

Dear Carol and Celeste,

This note to update you about Entomology 2400H (which was approved with contingency by the NMS Panel of the ASCC on 9/22/14). The revision submitted by the Dept of Entomology was approved by the Chair of the Panel, Harald Vaessin.

The course will now move on to University Honors and Scholars and the Office of Academic Affairs. Provided the course request is subsequently approved all the way through the Office of the University Registrar, Entomology 2400H will be a new course with GE Natural Science—Biological Science (in ASC for BA-students only) starting Spring 2015.

Please know that the GE assessment plan will need to be implemented each time the course is offered and GE data gathered. After the second offering of the course, the Department of Entomology will be asked to submit an initial report summarizing GE assessment results of those first two offerings (following the format of sections I and II of the Assessment Report Requirement in Appendix 7 of the ASC Curriculum and Assessment Operations Manual [p. 88] https://asccas.osu.edu/files/ASC_CurrAssess_Operations_Manual.pdf). Our program assistant Danielle Hogle (hogle.12) can help the Department with any aspect of the GE assessment requirement. She will also make sure to contact the Department before the course is offered as a GE Natural Science-Biological Science course and provide any assistance that you may need.

Many thanks,
Bernadette
