Larry:

The proposal from the School of Earth Sciences, College of Arts and Sciences, to revise the undergraduate major program in Earth Sciences, leading to the Bachelor of Science degree, was approved by the Council on Academic Affairs at its meeting on November 5, 2014. Thank you for attending the meeting to respond to questions/comments.

No additional level of review/approval is needed. This action will be included in the Council's next Annual Activities Report to the University Senate (June 2015).

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions, please contact the Chair of the Council, Professor Jim Rathman (.1), or me.

Thank you for the detailed work that you put into this proposal – as you always do with everything related to curricular matters.

Randy

W. Randy Smith, Ph.D.

Vice Provost for Academic Programs
