Chris:

The proposal to establish a Social Science Analytics Specialization for the undergraduate Data Analytics major program was approved by the Council on Academic Affairs at its meeting on January 13, 2016. Thank you for attending the meeting and responding so effectively to questions/comments.

No additional level of review/approval is necessary. This action will be included in the Council's next Annual Activities Report to the University Senate (June 2016).

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions please contact the Chair of the Council, Professor Blaine Lilly (.2), or me.

Congratulations on the successful completion of the approval process for this new specialization in the this important interdisciplinary undergraduate major!

The Office of Academic Affairs is grateful for the leadership that you and Professor Srin Parthasarathy are providing.

Randy

W. Randy Smith, Ph.D.
