Subject: Linguistics 2052H
Date: Friday, January 16, 2015 10:33:00 AM

Dear Cynthia and Julie,

On Tuesday, January 13, the NMS Panel of the ASCC reviewed a request for GE status (Quantitative Reasoning—Mathematical or Logical Analysis) for Linguistics 2052H. I am happy to report that the Panel unanimously approved the request.

The course request will be presented to the full ASCC at its next meeting on January 23 and, if there are no questions or comments, will then be advanced to University Honors and Scholars. Provided the course will be approved at the subsequent stages, Linguistics 2015H will be a new course starting Summer 2015.

Please know that the GE assessment plan will need to be implemented each time the course is offered and GE data gathered. After the second offering of the course, the Assessment Panel will ask the Department to submit an initial report summarizing GE assessment results of those first two offerings (following the format of sections I and II of the Assessment Report Requirement in Appendix 7 of the ASC Curriculum and Assessment Operations Manual [p. 88] http://ascas.osu.edu/files/ASC_CurrAssess_Operations_Manual.pdf). Our program assistant Danielle Hogle (hogle.12) can help the Department with any aspect of the GE assessment requirement. She will also make sure to contact the Department before the course is offered and provide any assistance that the faculty member may need. Could you please communicate this information to the faculty member?

Let me know if you have any questions.

Best,
Bernadette
