Dear Harald,

This note to let you know that the ASC Graduate Curriculum Committee reviewed Molecular Genetics 5300 this week and unanimously approved it via e-vote.

We do have one question. The listed prereqs for the course are: "C- or better in MolGen 4606 OR MolGen 4500." Since the course is also accessible to Graduate Students, should we add "or graduate standing"? (Or would you expect the graduate students to comply with the same undergraduate requirement? Seems unlikely.) Please let us know if there is anything we should do before advancing the course to the Graduate School and OAA.

My best,
Bernadette
