Dear Chuck and Larry,

This week, the NMS Panel reviewed the proposals for cross-listed courses Microbiology/Earth Sciences 5160. The Panel unanimously approved the cross-listed courses with one contingency, namely that the syllabus mention the number of contact hours per week (the frequency and length of class meetings) for a lecture (instead of "Lecture: TBA").

If you have any questions about the vote, please contact the Chair of the Panel, Peter Craigmile (here cc'd).

I will return the courses via curriculum.osu.edu in a minute.

My best,
Bernadette
